Optimizing K-12 Education through Online and Blended Learning Ostashewski, Nathaniel, Howell, Jennifer, Cleveland-Innes, Martha, 2016-07-13 The integration of information and communication technologies in education is unavoidable, as an increasing percentage of educators embrace modern technology, others are faced with the decision to reevaluate their own pedagogical practices or become obsolete. To meet the needs of students, one must first define what stipulates a successful K-12 student, the best practices of online classrooms, the warning signs for low-performing students, and how to engage web-based students. Optimizing K-12 Education through Online and Blended Learning addresses the models, support, cases, and delivery of K-12 online education. Seeking to further the conversation about the most effective ways to integrate ICT into the classroom, this publication presents theoretical frameworks to support educators and administrators. This book is an essential collection of research for teachers, administrators, students of education, IT professionals, developers, and policy makers.

PDF Nabarava Special Edition - Ddu is nicer than Human Dianus King, 2019-10-05 About the Book Humans, it's time to be nice. Diggalto offers the world's first PDF e-book optimized for smartphones. Ddu is nicer than Human is a PDF version of Nabarava an e-pub-type E-book published in six volumes. We bound up six volumes into one, so we do not wish to have duplicate purchases by readers who have already purchased in single volume. Dianus King's worldview is all new and vast. The key to his worldview in the Nabarava series is the Grumm World. There are six stories in Ddu is nicer than Human that are independent, and connected like a puzzle. Nabarava's main characters are Cukang, Bangku and Cudangs, but Dianus King made the minor characters through Storyteller and Mini versions into main characters. This unique composition allows readers to understand the Grumm World in a variety of ways. To explain briefly with the character, this is what it is. O, K, and Qonya shows how interesting public transportation is. Gisaro, who is tone-deaf, gives information that there are Coucou on the Grumm planet that are similar to dinosaurs on Earth. Dalgma tells us that there are many craftsmen living on the continent of Jaran. Nomudara, who makes Romendery candy, tells the story of Ddus' love. Masiddama tells friendships with her Earth friend by food-related stories. During your trip to Grumm World with this work, your smartphone will turn into a wonderful paper book. It also recommends Nabarava OST, which invigorates the trip. Contents 1. Uco's Lucky Horn 2. DJ Dalgma 3. Nomudara's Candy Shop 4. The Elderly Woman Masiddama's A Box Lunch 5. An Octuple-decker Bus and A Giant

Grummer 6. Nabarava1 O.K.Qonya Publisher's Review Grummers, it's time to start a deal. Meet the Imagination Exchanger. Don't forget to express your respects, if you meet a Vaturai on the way.

Regulatory Challenges of AI Governance in the Era of ChatGPT Toriqul Islam, 2024-12-06 The increasing integration of artificial intelligence (AI), and particularly of large language models (LLMs) like ChatGPT, into human interactions raises significant ethical and social concerns across a broad spectrum of human activity. Therefore, it is important to use AI responsibly and ethically and to be critical of the information it generates. This book – the first comprehensive work to provide a structured framework for AI governance – focuses specifically on the regulatory challenges of LLMs like ChatGPT. It presents an extensive framework for understanding AI regulation, addressing its societal and ethical impacts, and exploring potential policy directions. Through 11 meticulously researched chapters, the book examines AI's historical development, industry applications, socio-ethical concerns, and legal challenges. Advocating for a human-centric, risk-based regulatory approach, emphasising transparency, public participation, and ongoing monitoring, the book covers such aspects of AI and its governance as the following: a comprehensive overview of the history and mechanics of AI; widespread public

misconceptions surrounding ChatGPT; ethical considerations (e.g., misinformation, accountability, and transparency); societal implications (e.g., job displacement, critical thinking, and malicious use); privacy concerns; intellectual property challenges; healthcare application dilemmas; interplay between LLMs and finance, and cross-border regulatory challenges. Throughout, the author identifies significant gaps in existing legal frameworks and explores potential policy directions to bridge these gaps. The book offers invaluable insights and recommendations for policymakers, legal experts, academics, students, technologists, and anyone interested in AI governance. It underscores the need for a collaborative effort and meaningful dialogue among industry leaders, academia, and civil society worldwide to promote responsible and ethical development and use of AI for the benefit of humanity.

Retail Strategies to Support Healthy Eating Alyssa Moran, Christina Roberto, 2021-01-29 In January 2020, the Center for Science in the Public Interest (CSPI), The Food Trust, Johns Hopkins Bloomberg School of Public Health, and Healthy Eating Research (HER) met for a Healthy Retail Research Convention in Washington, D.C. Attendees included food industry representatives, researchers, and nonprofit organizations. The objective of the convention was to develop a national healthy retail research agenda by (1) determining the effectiveness of government policies, corporate practices, and in-store pilots in promoting healthy eating; (2) identifying gaps in the healthy food retail literature and generating questions for future research, with an intentional focus on reducing health disparities and improving equity; (3) highlighting best practices for partnering with retailers and food manufacturers on healthy retail research; (4) facilitating relationships between retailers and researchers to implement and evaluate retail interventions; and (5) identifying existing datasets, ongoing work, and new opportunities for retail-research partnerships.

Distracted Doctoring Peter J. Papadakos, Stephen Bertman, 2017-07-31 Examining-room computers require doctors to record detailed data about their patients, yet reduce the time clinicians can spend listening attentively to the very people they are trying to help. This book presents original essays by distinguished experts in their fields, addressing this critical problem and making an urgent case for reform, because while electronic technology has revolutionized the practice of medicine, it also poses a unique challenge to health care. Smartphones in the hands of doctors and nurses have become dangerously seductive devices that can endanger their patients. *Distracted Doctoring* is written for anesthesiologists and surgeons, as well as general practitioners, nurses, and health care administrators and students. Chapters include *Electronic Challenges to Patient Safety and Care*; *Distraction, Disengagement, and the Purpose of Medicine*; and *Managing Distractions through Advocacy, Education, and Change*.
