

Sala Dei Cento Giorni

L Darling-Hammond

The Homes of Giorgio Vasari Liana Cheney, 2006 Giorgio Vasari was one of the few artists in the history of art who built, designed, and decorated his homes. This book is the first to focus on Vasari's decorative cycles for his homes in Arezzo and Florence, revealing the significance of the artistic, cultural, and historical milieu of the sixteenth century. This study breaks new ground in two ways: First, in a personal and original manner, the imagery is related to Vasari's artistic ideas on history painting and the role of the artist. And second, Vasari's imagery portrays visual galleries applauding his teachers, antiquity and the creation of art.

Raphael's Ostrich Una Roman D'Elia, 2016-04-27 Raphael's Ostrich begins with a little-studied aspect of Raphael's painting—the ostrich, which appears as an attribute of Justice, painted in the Sala di Costantino in the Vatican. Una Roman D'Elia traces the cultural and artistic history of the ostrich from its appearances in ancient Egyptian hieroglyphs to the menageries and grotesque ornaments of sixteenth-century Italy. Following the complex history of shifting interpretations given to the ostrich in scientific, literary, religious, poetic, and satirical texts and images, D'Elia demonstrates the rich variety of ways in which people made sense of this living “monster,” which was depicted as the embodiment of heresy, stupidity, perseverance, justice, fortune, gluttony, and other virtues and vices. Because Raphael was revered as a god of art, artists imitated and competed with his ostrich, while religious and cultural critics complained about the potential for misinterpreting such obscure imagery. This book not only considers the history of the ostrich but also explores how Raphael's painting forced viewers to question how meaning is attributed to the natural world, a debate of central importance in early modern Europe at a time when the disciplines of modern art history and natural history were developing. The strangeness of Raphael's ostrich, situated at the crossroads of art, religion, myth, and natural history, both reveals lesser-known sides of Raphael's painting and illuminates major cultural shifts in attitudes toward nature and images in the Renaissance. More than simply an examination of a single artist or a single subject, Raphael's Ostrich offers an accessible, erudite, and charming alternative to Vasari's pervasive model of the history of sixteenth-century Italian art.

Araldica in Vaticano Jacques Martin, 1987 In the late 1960s Cardinal Martin conceived the idea of having an authoritative heraldic guide for the Vatican where hundreds of coats of arms date back to Pope Eugene IV (1431-1447) the earliest armorial bearings of popes who resided in the Vatican. When Pope Paul VI had consecrated him Bishop of Neapolis in Palaestina during the papal visit to the Holy Land in 1964 and appointed him the first Prefect of the Pontifical Court, Monsignor Martin spent his free time writing profusely illustrated articles on heraldry in the Vatican for the Holy See's Sunday newspaper L'Osservatore della Domenica . At that time he already had lived in the Vatican for over thirty years. When Pope John Paul II ascended the See of St. Peter in 1978 and, like his immediate predecessor, John Paul I, appointed him Prefect of the Papal Household and the Pontifical Court, Monsignor Martin had himself become a unique figure in the history of heraldry. He was the first Prelate of the Roman Church who was able to impale his personal coat of arms with that of the three Popes under whom he had served as Prefect of the Pontifical Court. When Mons. Martin approached me in 1983 about the possibility of producing a book on heraldry in the Vatican, he had lived over fifty years in the Vatican. His knowledge about the Vatican and the people who had lived there was phenomenal. After the book had been published, several prominent members of the Roman Curia suggested that the book's title was in many respects a misnomer. All the Popes and other famous residents of the Apostolic Palace were profusely represented with their armorial bearings, but Monsignor Martin, who personally had served six Popes, added countless anecdotes and curiosities about people and places inside the Vatican. The book reminds one of the succinct and sometimes hilarious accounts in Aubrey's Brief Lives. For example, he recalls his first years in the Vatican when he worked in the Papal Secretariat of State of Pope Pius XI, under whom the present Vatican City State came into existence. Pope Pius XI checked the signatures of all the members in his Secretariat, and anybody whose signature he considered illegible was dismissed from service in the Secretariat of State. Heraldry in the Vatican is in a manner of speaking a legacy Cardinal Martin left behind when he died in 1992. It is far more than a guide to the hundreds of heraldic emblems in the Vatican or a history of their bearers. It brings alive 500 years of one of the most fascinating places on earth. The author himself had become part of the rich tapestry of the Vatican. This is not

just a book for any serious scholar of heraldry or Vatican history; it is an indispensable companion for anybody fortunate enough to visit Rome and the Vatican, and it will compensate those who cannot do so. Peter Bander van Duren

Italian Frescoes, High Renaissance and Mannerism, 1510-1600 Julian-Matthias Kliemann, Michael Rohlmann, 2004
Following the success of the previous volumes in this extraordinary Series (The Early Renaissance and The Flowering of the Renaissance), Italian Frescoes: The High Renaissance to the Early Baroque presents twenty-two fresco cycles that include brilliant works by Michelangelo, Raphael, Titian, Andrea del Sarto, Parmigianino, Bronzino, Veronese, and Carracci all of them still visible on walls and ceilings of palaces and churches spanning Italy from the Veneto to Rome. The authors present such celebrated sites as the Sistine Chapel in Rome, Palladio Villa Barbaro in Maser, and the Palazzo del Te in Mantua as well as lesser known gems. Each of the twenty-two chapters is concise and authoritative, offering a descriptive and interpretive essay on all aspects of fresco painting, covering the artists and their patrons in the context of their cultural and political history. Each essay concludes with a diagram of the fresco cycle, followed by a series of full- and double-page colour plates showing the entire cycle, many reproduced from new photographs of recently restored frescoes.
