Summary of Patrick King's The Art of Witty Banter Everest Media, 2022-06-09T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 HPM and SBR are six types of responses that can be used to break the ice and start conversations with anyone. They are helpful because they can help you find topics to talk about and respond to people. #2 HPM stands for History, Philosophy, and Metaphor. It involves your personal experience regarding a topic, your personal stance, take, or opinion on a specific topic, or what the conversation topic reminds you of. #3 SBR stands for Specific, Broad, and Related. To any statement or question directed to you, you can reply with one of these types of statements. Specific involves asking targeted questions regarding the topic you're talking about. Broad means you ask broad questions about the topic. #4 The EDR is the last part of the nine frameworks that you can use to answer just about anything. It straddles HPM and SBR - you can use what's in front of you, but it's even better if you draw internally and speak about your own thoughts and opinions.

A deeper understanding of this domain can enable individuals and professionals to achieve their intended objectives. Imparting education and corporate training in the field of communication for more than 25 years has been a transformational experience. Grappling with the realities of communication and parallel to that, conducting informal research regarding various communication principles has been an exhilarating experience. I believe that for what all I have gained while having a very interactive interface with the world of communication, now is the right time to repay by assimilating all my experiences in the form of a very comprehensive book in which the concepts and principles of communication are narrated in a lucid and non-textual manner. The objective of writing this book is to fulfill the need of individuals who need focused literature to develop their communication not only from an operational angle, like writing or making an oral presentation, but also as communication happens typically every second in formal and informal settings of the personal and working life of an individual. An attempt has been made to have an application bias instead of a theoretical one.

Mirage Nina Burleigh, 2023-11-21 The story of Napoleon's invasion of the Nile Valley, the scholars and scientists who tagged along, and the birth of Egyptology: A fascinating read. — San Francisco Chronicle Two hundred years ago, only the most reckless or eccentric Europeans had dared to traverse the unmapped territory of the modern-day Middle East. But in 1798, more than 150 French engineers, artists, doctors, and scientists—even a poet and a musicologist—traveled to the Nile Valley under the command of Napoleon Bonaparte and his invading army. Hazarding hunger, hardship, uncertainty, and disease, Napoleon's savants risked their lives in pursuit of discovery. The first large-scale interaction between Europeans and Muslims in the modern era, the audacious expedition was both a triumph and a disaster, resulting in finds of immense historical and scientific importance (including the ruins of the colossal pyramids and the Rosetta Stone) and in countless tragic deaths through plague, privation, madness, or violence. In this account, journalist and New York Times-bestselling author Nina Burleigh brings readers back to the landmark adventure at the dawn of the modern era that ultimately revealed the deepest secrets of ancient Egypt to a curious continent. An absorbing glimpse of Napoleon's thwarted bid for a grand French empire and its intellectual fruits. — Publishers Weekly Pepper[ed] with multitudes of facts, digressions and anecdotes. — The New York Times Book Review (Editor's Choice) Illuminates an unfamiliar moment in the history of science . . . Burleigh's storytelling ability is mesmerizing. — Library Journal
