The Goldfinch Donna Tartt, 2015-04-07 WINNER OF THE PULITZER PRIZE The Goldfinch is a rarity that comes along perhaps half a dozen times per decade, a smartly written literary novel that connects with the heart as well as the mind....Donna Tartt has delivered an extraordinary work of fiction.--Stephen King, The New York Times Book Review Theo Decker, a 13-year-old New Yorker, miraculously survives an accident that kills his mother. Abandoned by his father, Theo is taken in by the family of a wealthy friend. Bewildered by his strange new home on Park Avenue, disturbed by schoolmates who don't know how to talk to him, and tormented above all by his longing for his mother, he clings to the one thing that reminds him of her: a small, mysteriously captivating painting that ultimately draws Theo into the underworld of art. As an adult, Theo moves silkily between the drawing rooms of the rich and the dusty labyrinth of an antiques store where he works. He is alienated and in love--and at the center of a narrowing, ever more dangerous circle. The Goldfinch is a mesmerizing, stay-up-all-night and tell-all-your-friends triumph, an old-fashioned story of loss and obsession, survival and self-invention, and the ruthless machinations of fate.

The Goldfinch Donna Tartt, 2013-10-22 A young New Yorker grieving his mother's death is pulled into a gritty underworld of art and wealth in this "extraordinary" and beloved novel that connects with the heart as well as the mind (Stephen King, New York Times Book Review), named a New York Times Best Book of the 21st Century. Theo Decker, a 13-year-old New Yorker, miraculously survives an accident that kills his mother. Abandoned by his father, Theo is taken in by the family of a wealthy friend. Bewildered by his strange new home on Park Avenue, disturbed by schoolmates who don't know how to talk to him, and tormented above all by a longing for his mother, he clings to the one thing that reminds him of her: a small, mysteriously captivating painting that ultimately draws Theo into a wealthy and insular art community. As an adult, Theo moves silkily between the drawing rooms of the rich and the dusty labyrinth of an antiques store where he works. He is alienated and in love — and at the center of a narrowing, ever more dangerous circle. The Goldfinch is a mesmerizing, stay-up-all-night and tell-all-your-friends triumph, an old-fashioned story of loss and obsession, survival and self-invention. From the streets of New York to the dark corners of the art underworld, this soaring masterpiece examines the devastating impact of grief and the ruthless machinations of fate (Ron Charles, Washington Post).

The Scandal of Adaptation Thomas Leitch, 2023-04-21 The essays in this volume seek to expose the scandals of adaptation. Some of them focus on specific adaptations that have been considered scandalous because they portray characters acting in ways that give scandal, because they are thought to betray the values enshrined in the texts they adapt, because their composition or reception raises scandalous possibilities those adapted texts had repressed, or because they challenge their audiences in ways those texts had never thought to do. Others consider more general questions arising from the proposition that all adaptation is a scandalous practice that confronts audiences with provocative questions about bowdlerizing, ethics, censorship, contagion, screenwriting, and history. The collection offers a challenge to the continued marginalization of adaptations and adaptation studies and an invitation to change their position by embracing rather than downplaying their ability to scandalize the institutions they affront.

Cognitive Linguistic Approaches to Text and Discourse Hart Christopher Hart, 2019-05-15 Drawing on range of text genres including novels, poems, health forums, holiday guestbooks, prayers, political songs and news stories, each chapter uses cognitive linguistics to shed light on the meanings and meaning-making processes invoked when we encounter texts belonging to different literary and political genres. The book presents new insights into the workings of textual phenomena such as metaphor, viewpoint and deixis and also sheds light on more elusive, epiphenomenal qualities such as a text's ambience, atmosphere, power, ideology or persuasiveness. It also takes new strides in cognitive text analysis by exploiting experimental and ethnographic methods to empirically investigate readers' reception of, and resistance to, texts.
