At the Coffee Shop of Curiosities Heather Webber,2023-08-01 From the USA Today bestselling author of *In the Middle of Hickory Lane* comes Heather Webber's next enchanting novel, *At the Coffee Shop of Curiosities*! A mysterious letter. An offer taken. And the chance to move forward. When Ava Harrison receives a letter containing an unusual job listing one month after the sudden death of her ex-boyfriend, she thinks she's being haunted. The listing—a job as a live-in caretaker for a peculiar old man and his cranky cat in Driftwood, Alabama—is the perfect chance to start a new life. A normal life. Ava has always been too fearful to even travel, so no one's more surprised than she is when she throws caution to the wind and drives to the distant beachside town. On the surface, Maggie Mae Brightwell is a bundle of energy as she runs Magpie's, Driftwood's coffee and curiosity shop, where there's magic to be found in pairing the old with the new. But lurking under her cheerful exterior is a painful truth—keeping busy is the best way to distract herself from the lingering loss of her mama and her worries about her aging father. No one knows better than she does that you can't pour from an empty cup, but holding on to the past is the only thing keeping the hope alive that her mama will return home one day. Ava and Maggie soon find they're kindred spirits, as they're both haunted—not by spirits, but by regret. Both must learn to let go of the past to move on—because sometimes the waves of change bring you to the place where you most belong. A Certain Kind of Starlight Heather Webber, 2024-07-23 In the face of hardship, two women learn how to rise up again under the bright side of the stars in *A Certain Kind of Starlight*, the next book from USA Today bestselling author Heather Webber, the queen of magical small-town charm (Amy E. Reichert) Everyone knows that Addie Fullbright can't keep a secret. Yet, twelve years ago, as her best friend lay dying, she entrusted Addie with the biggest secret of all. One so shattering that Addie felt she had to leave her hometown of Starlight, Alabama, to keep from revealing a devastating truth to someone she cares for deeply. Now she's living a lonely life, keeping everyone at a distance, not only to protect the secret but also her heart from the pain of losing someone else. But when her beloved aunt, the woman who helped raise her, gets a shocking diagnosis and asks her to come back to Starlight to help run the family bakery, Addie knows it's finally time to go home again. Tessa Jane Wingrove-Fullbright feels like she's failing. She's always been able to see the lighter side of life but lately darkness has descended. Her world is suddenly in shambles after a painful breakup, her favorite aunt's unexpected health troubles, and because crushing expectations from the Wingrove side of her family are forcing her to keep secrets and make painful choices. When she's called back to Starlight to help her aunt, she's barely holding herself together and fears she'll never find her way back to who she used to be. Under the bright side of the stars, Addie and Tessa Jane come to see that magic can be found in trusting yourself, that falling apart is simply a chance to rise up again, stronger than ever, and that the heart usually knows the best path through the darkness. Shakespeare in France Under the Ancien Régime Jean Jules Jusserand, 1899

London's Coffee Houses Antony Clayton, 2003 Coffee houses are now once again a familiar sight in London's high streets. They are the latest manifestation of an institution which began in the seventeenth century. Ads from the Restoration, London was awash with coffee houses. They were used not only for refreshment, but for business, auctions, medical treatment, news gathering hiring servants or just conversation. They were considered dangerously radical places by the authorities. In the 19th century the Temperance bourn introduced coffee taverns to wean drinkers away from gin palaces. In the 1950s came the coffee bars dispensing new kinds of coffee accompanied by new music -- skiffle and rock and roll -- in crowded basements. And of late new chains of coffee houses, with predictable decor and little atmosphere, have invaded London. This

major survey of the coffee houses is the most authoritative yet published, and is accompanied by many illustrations.

Science and Spectacle in the European Enlightenment Bernadette Bensaude-Vincent, Christine Blondel, 2008 The essays in this volume consider the interplay of science and spectacle in eighteenth-century Europe, describing the variety of public demonstrations of science in sites ranging from academies and laboratories to shops and streets.
