**Breve Historia de Portugal** A-H de Oliveira Marques, 2019

Utopias of Otherness Fernando Arenas, 2003 Forges a new understanding of how these two Lusophone nations are connected. The closely entwined histories of Portugal and Brazil remain key references for understanding developments--past and present--in either country. Accordingly, Fernando Arenas considers Portugal and Brazil in relation to one another in this exploration of changing definitions of nationhood, subjectivity, and utopias in both cultures. Examining the two nations' shared language and histories as well as their cultural, social, and political points of divergence, Arenas pursues these definitive changes through the realms of literature, intellectual thought, popular culture, and political discourse. Both Brazil and Portugal are subject to the economic, political, and cultural forces of postmodern globalization. Arenas analyzes responses to these trends in contemporary writers including Jose Saramago, Caio Fernando Abreu, Maria Isabel Barreno, Vergilio Ferreira, Clarice Lispector, and Maria Gabriela Llansol. Ultimately, Utopias of Otherness shows how these writers have redefined the concept of nationhood, not only through their investment in utopian or emancipatory causes such as Marxist revolution, women's liberation, or sexual revolution but also by shifting their attention to alternative modes of conceiving the ethical and political realms.

Pioneers of Globalization Jorge Nascimento Rodrigues, Tessa C. Devezas, 2007-12-01 A 270-page time travel along the routes that led to the birth of Globalization, contributing robust evidence regarding the pioneering role of the Portuguese in this important chapter in the evolution of the world system. The Portuguese alone originated the maritime routes on a global scale and this feat will remain recorded in human history for the millennia to come. INNOVATION & STRATEGY IN MODERN HISTORY The world system's telltale signature unveils the emergence of the first globalizing power Five main theses are defended in this book: • History is not a mere accumulation of past facts, the fruit of chance and uncertainty, and the Science of History is not a simplistic narrative of past 'stories.' • Globalization is an evolutionary and irreversible process, initially conceived in China around the 10th century, and born with the Portuguese Discoveries movement in the 15th and 16th centuries. • The Portuguese were pioneers in the process that led to the transition to a true global system of cultural and

commercial exchange. • The application of systemic methodology to the analysis of History allows for the construction of viable future scenarios. • There is an inheritance from the Portuguese generations active during the apex period between the 15th and 16th centuries (the “Discoveries Matrix”), as well as a portfolio of acquired knowledge regarding this country’s capacity for resilience and its historical relationship to some of the emerging 21st century powers.

Jahrbuch für Europäische Überseegeschichte 1/2000 Markus A. Denzel, Horst Gründer, Hermann Hiery, Klaus Koschorke, Johannes Meier, Eberhard Schmitt, Reinhard Wendt, Albert Wirz, 2001-01-01 Das Jahrbuch für Europäische Überseegeschichte informiert über die Geschichte der Beziehungen Europas zu nichteuropäischen Kulturen, über aktuelle Forschungen, Debatten, Kontroversen und über Forschungslücken. Sein Hauptgegenstand sind die vielfältigen und variantenreichen Wechselbeziehungen Europas nach Übersee, soweit sie seit der Antike historisch greifbar sind. Aus dem Inhalt: H. Maier, Streit der Kulturen? D. Bechtloff, Netzwerke der frühen Neuzeit. Portugiesische Einwanderung nach Spanisch-Amerika am Beispiel einer Quelle von 1625 M. dos Santos Lopes, Wie die Wilden immer wilder wurden. Afrika als neue Welt D. Brötel, Frankreichs indochinesisches Empire in der neueren Forschung J. Meier, Cuba, quo vadis? Historische Orientierungsmarken einer Kirche auf Identitätssuche P. Jenkins, Sources of Unexpected Light. Experiences with Old Mission Photographs in Research on Overseas History

**Historical Dictionary of Portugal** Douglas L. Wheeler, Walter C. Opello Jr., 2010-05-10 Portugal is a small Western European nation with a large, distinctive past replete with both triumph and tragedy. One of the continent's oldest nation-states, Portugal has frontiers that are essentially unchanged since the late 14th century. The country's unique character and 850-year history as an independent state present several curious paradoxes. As of 1974, when much of the remainder of the Portuguese overseas empire was decolonized, Portuguese society appeared to be the most ethnically homogeneous of the two Iberian states and of much of Europe. This, in spite of the fact that Portuguese society had received during 2,000 years of infusions of other ethnic groups in invasions and immigration: Phoenicians, Greeks, Celts, Romans, Suevi, Visigoths, Muslims (Arab and Berber), Jews, Italians, Flemings, Burgundian French, black Africans, and Asians. Indeed, Portugal has been a crossroads, despite its relative isolation in the western corner of the Iberian Peninsula, between the West and North Africa, Tropical Africa, and Asia and America. Since 1974, Portugal's society has become less homogeneous as there has been significant immigration of former subjects from her erstwhile overseas empire. The third edition of Historical Dictionary of Portugal greatly expands on the second edition through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions, as well as on significant political, economic, social, and cultural aspects.

Portuguese Brazil James Lang,1979 Do the Americas have a common history? When Herbert Eugene Bolton raised this question in his presidential address to the American Historical Society in 1933, he emphasized similar events that had shaped the epic of greater America. European colonists, for example, had to adapt their parent cultures to the American environment; they found ways to exploit indigenous peoples and each region's natural resources. As the competition for empire intensified, each metropolis tried to monopolize colonial trade and consolidate its political control overseas. Between 1776 and 1826, revolts transformed most of Europe's colonies into independent states. We need not agree with Bolton's selection of events to be sympathetic to the task he defined: to view the history of the Americas in a comparative context that reaches beyond the boundaries of regions and states. -- Preface.
