**Josefa Ormeño Alonso, Luis Gregorio Carvajal Martín, Lidia Beatriz Sanz Sumelzo**

**Curso avanzado de Word paso a paso** wordexperto.com, 2018-05-25 Microsoft Office Word 2016 es parte de la suite ofimática Office 2016. Es un potente procesador de texto con multitud de funciones, desconocidas por la mayoría de usuarios, que permiten redactar cualquier tipo de documento profesional, académico o personal en cualquier ámbito. La inmensa mayoría de los usuarios de Word lo utiliza no como lo que es, un potente procesador de textos, sino como una máquina de escribir del siglo pasado. Muchos, además, lo usan aplicando formatos directos, en vez de estilos, empeorando, aún más, sus potencialidades como herramienta de productividad y mejora de la eficiencia. La intención del autor de este libro es darlas a conocer para mejorar la productividad y la eficiencia a la hora de redactar o editar cualquier tipo de documento. Este libro se dirige a todo tipo de usuario, ya que los ejemplos que contiene van indicados paso a paso. Todo usuario que lo lea y repita sus ejercicios, mejorará sensiblemente sus habilidades. Trabajadores administrativos y auxiliares administrativos del sector público o privado, estudiantes y profesores en los niveles de enseñanza secundaria y superior, para redactar sus documentos académicos, tesis, proyectos fin de grado o máster. Trabajadores de los sectores legales, abogados, notarías etc. Finalmente, está recomendado, también para personas que se dedican a la docencia de Word, al proporcionarles material para sus clases y ejercicios. De hecho, este es el material que yo utilizo para las clases que imparto. Hay material para realizar un curso avanzado de 25 horas presenciales sobre Word. El libro está dividido en cinco partes, cada una con hasta 21 apartados con al menos un ejercicio con todas las indicaciones para realizarlo paso a paso y que cubren la mayoría de las funcionalidades de Word. Aproximadamente 80 ejercicios con 111 imágenes explicativas e indicativas de las acciones a realizar, distribuidas a lo largo de cerca de 200 páginas de contenido. Quienes sigan el libro de principio a fin y realicen todos sus ejercicios, obtendrán el máximo aprovechamiento. Pero quienes tengan interés en una sola parte, como la combinación de correspondencia o la segunda parte, orientada a la realización de documentos académicos largos, también mejorarán profundamente sus habilidades en estos aspectos. Este libro se complementa con mi blog personal y mi canal de YouTube, donde podéis ampliar conceptos o repasar otros no avanzados.

**Taller De Habilidades De Aprendizaje** Zarzar Charur, Carlos, 2020-11-04 Este libro está estructurado en dos módulos que corresponden a sendas unidades de competencia: Módulo 1: Estrategias, técnicas y habilidades para fortalecer el aprendizaje. claramente diferenciadas. En la primera parte (Planteamiento didáctico), se presentan las competencias que se pretenden desarrollar en el módulo. El producto final, con los correspondientes criterios de calidad. La situación didáctica para que demuestren la competencia. La situación didáctica para llegar al logro de las competencias. En la segunda parte de cada módulo (desarrollo temático) se presenta el desarrollo de los principales temas, así como la explicación de los principales conceptos. Asimismo, cuenta con diversas lecturas de apoyo, actividades y ejercicios, con el fin de reforzar el aprendizaje. Se incluyen enlaces tanto a algunos videos que se pueden encontrar en YouTube, como documentos en los que se puede encontrar mayor información sobre los temas expuestos. En la tercera parte de cada módulo (Evaluación del módulo), se presentan algunos lineamientos para llevar a cabo la evaluación de la unidad. Interaction of Borrowing and Word Formation ten Hacken Pius ten Hacken, 2020-03-02 Drawing on detailed case studies

across a range of languages, including English, German, Dutch, Italian, Portuguese, Polish, Czech, Russian, Lithuanian and Greek, this book examines the different factors that determine the outcome of the interaction between borrowing and word formation. Historically, borrowing has largely been studied from etymological and lexicographical perspectives and word formation has been included in morphology. However, this book focuses on their mutual influence and interaction. Bringing together a range of contributors, each chapter illustrates how borrowing and word formation are in competition as alternative naming processes, while also showing how they can influence each other. The case studies are framed by an introduction that describes the general background and a conclusion that summarises the main findings.

The Making of Doctoral Supervisors Stan Taylor, Margaret Kiley, Karri A. Holley, 2020-12-17 With a wide range of international contributors, this book surveys how the main doctoral awarding countries across the globe define criteria for the eligibility of supervisors. It compares and contrasts their approaches, comments upon their robustness, and identifies examples of good practice. The quality of supervision has been shown to be a major factor in determining the learning experiences of doctoral scholars and their chances of success. However, relatively little is known about the ways in which doctoral supervisors are selected for their roles, supported to perform them, and recognised for their efforts. This book looks at these matters in 21 major doctoral awarding countries, collectively responsible for over 90% of global doctoral awards. Each case study constitutes a stand-alone contribution to the literature on doctoral supervision in that country and: provides a brief introduction to the national context of doctoral education; outlines policies and procedures for the selection of supervisors; discusses the support and development available to supervisors and gives examples of good practice; comments on if and how supervision is recognised and rewarded. Written by a distinguished international team of authors, *The Making of Doctoral Supervisors* will be of interest to all those engaged in doctoral education including policy makers, program leaders, supervisors, administrators, and scholars in the field.
