Reformas educativas en un Estado federal Guillermo Ramón Ruiz, 2024-01-29 En este libro se analiza la ejecución de las reformas educativas en ocho jurisdicciones provinciales de las cinco regiones educativas que tiene la Argentina, principalmente en el plano curricular. La pregunta que guía esta indagación es: ¿qué efectivamente se ha reformado en la educación argentina en los cuarenta años de democracia? Para ello, la escala de análisis es subnacional y -con un criterio federal-; se trata de interpretar el rol del Estado federal y de las capacidades diferenciales de los Estados provinciales analizados. La cuestión de las diferencias en el Estado federal y cómo ello cercena el principio de igualdad -que está en la base del derecho a la educación- es puesta en evidencia, discutida y problematizada, aunque no necesariamente respondida. Se complementa el estudio con datos sociodemográficos. Luego de 40 años de gobiernos democráticos y una profusa labor parlamentaria en materia educativa, la desigualdad evidenciada por los indicadores de cobertura y rendimiento reflejan diferencias más profundas, sobre todo en el plano curricular. Ello afecta a las condiciones y a las estrategias de enseñanza y ciertamente impacta sobre los aprendizajes de la población escolar. Analizar esas limitaciones a partir de las políticas curriculares en el Estado federal, así como los procesos de traducción de los lineamientos federales que se evidencian en los niveles subnacionales y también algunos de los resultados en términos de desempeño constituyen los propósitos de este libro.

Historia de la educación en la Argentina IX Adriana Puiggrós, 2021-05-01 Hoy como ayer resulta indispensable revisar la historia y la historiografía de la educación argentina, tanto para orientar las investigaciones que vuelven a tener lugar en las universidades públicas como para abonar las posturas frente a los cambios político-pedagógicos. El vol. IX de esta serie se propone analizar continuidades, rupturas y articulaciones entre la educación de fines del siglo XX y los fuertes cambios del siglo XXI, y también hacer historia en tiempos en los que las políticas adversas a la educación pública plantean

diversas formas de desescolarización, la descalificación profesional y la sobreexplotación laboral de los docentes, la sustitución de la educación común por opciones tecnocráticas y meritocráticas, e intentan instalar lecturas que borren cualquier oscuridad del pasado.
