The Invention of Latin American Music Pablo Palomino, 2020 The ethnically and geographically heterogeneous countries that comprise Latin America have each produced music in unique styles and genres - but how and why have these disparate musical streams come to fall under the single category of Latin American music? Reconstructing how this category came to be, author Pablo Palomino tells the dynamic history of the modernization of musical practices in Latin America. He focuses on the intellectual, commercial, musicological, and diplomatic actors that spurred these changes in the region between the 1920s and the 1960s, offering a transnational story based on primary sources from countries in and outside of Latin America. The Invention of Latin American Music portrays music as the field where, for the first time, the cultural idea of Latin America disseminated through and beyond the region, connecting the culture and music of the region to the wider, global culture, promoting the now-established notion of Latin America as a single musical market. Palomino explores multiple interconnected narratives throughout, pairing popular and specialist traveling musicians, commercial investments and repertoires, unionization and musicology, and music pedagogy and Pan American diplomacy. Uncovering remarkable transnational networks far from a Western cultural center, The Invention of Latin American Music firmly asserts that the democratic legitimacy and massive reach of Latin American identity and modernization explain the spread and success of Latin American music.

Research Perspectives on Music Education in Ibero-America Rosa María Serrano, Guadalupe López-Íñiguez, José Luis Aróstegui, Gwen Moore, 2025-02-26 This volume brings together a selection of essential articles from the journal *Revista Internacional de Educación Musical (RIEM)*, a Spanish-language journal published by the International Society for Music Education, making this work available to an English-speaking audience for the first time. With chapters representing a wide range of countries in the Ibero-American world, including Argentina, Brazil, Chile, Colombia, Mexico, Portugal, and Spain, the book aims to develop international exchange in the music education community. The book is structured around key themes, including music teacher training, youth music education, higher music education, and sociomusical programs, with a focus on opportunities for improvement across music education contexts inside and outside schools. Making vibrant research and practice from across the region available to a wider international audience, this book facilitates exchanges between

researchers and educators and enhances global music education studies by highlighting groundbreaking work from Spanish- and Portuguese-speaking countries.

Changing Musical Instruments and AI; Musical Instruments in Public Life Gisa Jähnichen, 2025-11-10 Did you ever know that eurocentric means also melody-centric? Did you know how to define robots in music, and how much public life is currently determined by the validation of public musicians? How can AI help overcome difficulties in using scores and teach human creativity regarding musical instruments? More than thirty-five scholars have participated in the 25th Symposium of the ICTMD-SG on Musical Instruments. The best papers were chosen for this volume revolving around the two major areas of interest and the MET was scrutinized. Answers to some questions above can be found in the articles of this volume.

Etnomusicología Jacob Rekedal (editor), 2022-04-01 ¿Qué es la etnomusicología? ¿Por qué es relevante hoy en día? ¿Cómo ha cambiado esta área de estudios a lo largo del tiempo y qué potencial tiene para arrojar luz sobre temas complejos relacionados con la música, el sonido, la cultura y la sociedad? Los temas de este libro varían ampliamente, y la colección no rehúye la contradicción ni pretende pintar un cuadro nítido y cohesivo de la etnomusicología en otras latitudes. Más bien, los capítulos de este libro abordan desafíos clave en la disciplina, que van desde lo ético y político hasta lo existencial y ontológico. Representan una disciplina que está a la vez repleta de innovación y luchando por reconciliar su lugar en un mundo lleno de conflictos.

Más que sonidos Alejandro Vainer, 2020-07-10 Todo lo que deseamos es que un investigador nos diga por qué ese joven que está sentado en la fila A está firmemente absorbido por los sonidos musicales que escucha, mientras que su novia, poco o nada extrae de ellos. El músico Aaron Copland lanzaba ese deseo y Alejandro Vainer toma el desafío. La música es una experiencia corporal e intersubjetiva es el eje que lo recorre. En las antípodas de quienes sostienen que es un arte inmaterial, este libro restituye el cuerpo a la experiencia musical. El autor organiza una propuesta donde define una subjetividad que es corporal y como se produce como un entramado biológico, psíquico y cultural. Siguiendo a Freud, postula las series complementarias musicales, que le permiten desentrañar por qué amamos ciertas músicas a lo largo de nuestra vida. Luego analiza las experiencias musicales en situaciones diferentes. Primero, un análisis de lo sucedido con las músicas en los campos de concentración-exterminio durante la Segunda Guerra Mundial y en la última dictadura cívico-militar en Argentina. Segundo, el entrecruzamiento del erotismo y la música a lo largo de la historia. Y tercero, un exhaustivo análisis de la función subjetiva y social de la música de fondo. La forma de escuchar más frecuente hoy. El libro cierra con dos bonus tracks: uno sobre la historia de los psicoanalistas y la música; el otro sobre los músicos y el dinero, donde se visualiza las condiciones de trabajo de quienes producen esas experiencias que nos llegan hasta los huesos. Un libro ameno y profusamente documentado. Sus fundamentos van desde el psicoanálisis hasta la musicología, pasando por las neurociencias,

la antropología, la sociología, la literatura y los testimonios de los propios músicos. Un viaje para amantes de la música. Más que sonidos, es una parte de nuestra vida.

Encounters in Ethnomusicology Michael Figueroa, Jaime Jones, Timothy Rommen, 2022 Philip V. Bohlman's impact on the scope and meaning of ethnomusicology is difficult to overstate. His influence is manifest not only in his numerous publications, his service to the discipline, and his presence at institutions and gatherings across the globe, but also in the work of his students. This volume, featuring essays written by his students and peers, honors his enormous contributions to the discipline by focusing on three analytic lenses through which Bohlman's work has excavated the complexities of encounter - ethics, memory, and performance. The essays engaging ethics treat topics including scholarship as activism, the power/politics of knowledge, and the ethics of musical practice and performance. Memory is explored through essays exploring issues related to modernity, commemoration, the nation, and historiography. The essays concerned with performance interrogate historical, symbolic, and experiential aspects of musical performance and wrestle with the enduring questions of belonging that often accompany such performances. Throughout, it is clear that each contribution draws inspiration and methodological strength from the authors' formative encounters with Bohlman's body of work. Timothy Rommen is Professor of Music and Africana Studies at University of Pennsylvania. Philip V. Bohlman's impact on the scope and meaning of ethnomusicology is profound. This volume, featuring essays written by his students and peers, honors his enormous contributions to the discipline by focusing on the complexities of encounter. Part I: Ethics addresses scholarship as activism, the power/politics of knowledge, and the ethics of musical practice and performance. Part II: Memory examines commemoration, the nation, and historiography. Part III: Performance interrogates historical, symbolic, and experiential aspects of musical performance, wrestling with enduring questions of belonging.

Music Radio Morten Michelsen, Mads Krogh, Steen Kaargaard Nielsen, Iben Have, 2018-12-27 Why is music so important to radio? This anthology explores the ways in which musical life and radio interact, overlap and have influenced each other for nearly a century. One of music radio's major functions is to help build smaller or larger communities by continuously offering broadcast music as a means to create identity and senses of belonging. Music radio also helps identify and develop musical genres in collaboration with listeners and the music industry by mediating and by gatekeeping. Focusing on music from around the world, *Music Radio* discusses what music radio is and why or for what purposes it is produced. Each essay illuminates the intricate cultural processes associated with music and radio and suggests ways of working with such complexities.
