Echoes Within: Journey of Balance Jules Much,2024-04-05 Ava, a skilled explorer on the planet Aethel Prime, stumbles upon a hidden portal leading to a vibrant alien world. Along with her companions, Elara, and Anya, she ventures through the portal, uncovering the secrets of a long-lost civilization. Their discoveries hold the potential to revolutionize science, but the knowledge comes at a price. As they grapple with the ethical implications of their findings, Ava is drawn back to the alien world by a mysterious pull. Now, she faces a critical choice: embrace the safety of collaboration or answer the call of the unknown on a solo mission fraught with danger. Aethel Prime: The Whispers Beyond is a captivating tale of exploration, responsibility, and the enduring allure of the unknown.

A Concordance to the Poems of Emily Dickinson S. P. Rosenbaum,2019-06-30 A Concordance to the Poems of Emily Dickinson is the third volume in the distinguished series Cornell Concordances. Like the others, it was programmed on an IBM 704 electronic computer and provides an alphabetical list of all significant words—each word given in context. In order to provide variants, it was based on Thomas H. Johnson's three-volume edition of all the known texts of Emily Dickinson's poems. Included are an analytical preface by the editor and an index of words in the order of frequency.

International Handbook of Interpretation in Educational Research Paul Smeyers,David Bridges,Nicholas C. Burbules,Morwenna Griffiths,2015-01-06 This handbook focuses on the often neglected dimension of interpretation in educational research. It argues that all educational research is in some sense 'interpretive', and that understanding this issue belies some usual dualisms of thought and practice, such as the sharp dichotomy between 'qualitative' and 'quantitative' research. Interpretation extends from the very framing of the research task, through the sources which constitute the data, the process of their recording, representation and analysis, to the way in which the research is finally or provisionally presented. The thesis of the handbook is that interpretation cuts across the fields (both philosophically, organizationally and

methodologically). By covering a comprehensive range of research approaches and methodologies, the handbook gives (early career) researchers what they need to know in order to decide what particular methods can offer for various educational research contexts/fields. An extensive overview includes concrete examples of different kinds of research (not limited for example to 'teaching' and 'learning' examples as present in the Anglo-Saxon tradition, but including as well what in the German Continental tradition is labelled 'pädagogisch', examples from child rearing and other contexts of non-formal education) with full description and explanation of why these were chosen in particular circumstances and reflection on the wisdom or otherwise of the choice - combined in each case with consideration of the role of interpretation in the process. The handbook includes examples of a large number of methods traditionally classified as qualitative, interpretive and quantitative used across the area of the study of education. Examples are drawn from across the globe, thus exemplifying the different 'opportunities and constraints' that educational research has to confront in different societies.

The Lazarus War: Legion Jamie Sawyer, 2015-11-03 Following *Artefact*, *Legion* is the second book of the Lazarus War, an explosive new space adventure series from one of the brightest new stars in science fiction -- perfect for fans of *The Edge of Tomorrow*, *Alien* and James S. A. Corey's *Expanse* series. Conrad Harris is the legend known as Lazarus, and he has died hundreds of times. Using simulant bodies, he runs suicide missions in the depths of space. But he always comes back. As commanding officer of the Lazarus Legion, Harris and his elite Simulant Operations team are humanity's last line of defence against the hostile alien race known as the Krell. Having survived their ordeal on Helios, they're now leading a large-scale mission to the perilous, unexplored region of the Damascus Rift. There, another *Artefact* has been discovered. It is the product of an ancient alien life form -- and a possible weapon to be used against the Krell. This *Artefact* could finally help humanity win the war. But what Harris and the Lazarus Legion will discover there is from their worst nightmares . . . Discover the Lazarus War -- the thrilling new space opera series of elite space marines and galactic empires, from one of the most exciting new voices in science fiction. 'A gripping read that moves at warp speed' Jack Campbell, author of the *Lost Fleet* novels, on *The Lazarus War: Artefact* A hostile race of alien biomechs somewhat in the mould of H. R. Giger aliens . . . terrorism, subterfuge and traitors . . . starships sporting particle beam weapons, railguns the size of skyscrapers, laser batteries, missiles . . . And then there are the uber-human super-soldiers clad in powered armour and wielding plasma weapons . . . Is that enough for you? . . . This, dear readers, is the good stuff. Recommended -- Neal Asher, author of the *Agent Cormac* novels, on *The Lazarus War: Artefact* A highly promising science fiction debut -- a fun, gripping adventure story, with a mystery at its core that kept me turning the pages -- Gary Gibson on *The Lazarus War: Artefact* An adrenaline shot of rip-roaring military SF packed with cinematic action sequences and tightly drawn characters -- Stephen Deas on *The Lazarus War: Artefact*

Echo and the Homicidal Sea Panda Kelex, 2025-04-24 After Echo Fisher loses his grandfather, he stumbles on a journal detailing the location of a hidden, underwater cave filled with priceless dolphinkind relics. The only issue? It's in orca waters. Crossing the boundary could start another war... but the need to prove his grandfather wasn't the flake everyone in the pod thought pushes him to do the unthinkable. During his regular patrols, Maelstrom Marino notices the little dolphin shifter sitting close to the line, spying on orca waters. When Echo finally gets the nerve to cross the boundary, Mael swoops in... but almost too late. Another predator has Echo in their sights, and they're a lot closer than he is. Echo barely makes it out of orca waters alive—but the danger is only beginning. The following night, the orca who saved him shows up and demands to know what was so important that he'd threatened the treaty. Mael won't leave without answers, and he's not against persuasive seduction to get what he wants.

The New Oxford Thesaurus of English Patrick Hanks, 2000 The New Oxford Thesaurus of English is a completely new and unique top-of-the-range thesaurus. It is the result of intensive research and exploitation of Oxford's unique bank of linguistic databases. It provides comprehensive coverage of English as it is used today, including World English, and rare, unusual, and colloquial senses. The A-Z format, elegant open design, with new elements starting on a new line, and the most useful alternative words given first, make this thesaurus particularly accessible. Help on how to use senses correctly is given through practical example phrases and the cross-referencing system takes the user to other useful entries. Opposite and related words, and combining forms are clearly marked to distinguish them from the rest of the entry. In-text notes give invaluable advice on the use of awkward and confusable synonyms, and boxed noun lists provide a wealth of information on a wide variety of subjects, from actors and actresses to types of whisky.

River Colin Fletcher, 1997 From its Green River source in Wyoming to its black conclusion in Mexico's Gulf of California, the 1,700-mile Colorado is America's second-longest river and the one with the most beautiful vistas. For Fletcher this was an opportunity to perform aesthetic and emotional geology on the landscape (and on himself), and to treat the reader to a host of dramatic, moving and hilarious experiences. We see sandhill cranes and great blue herons; we experience many miles of whitewater challenges that stretch Fletcher's rafting capabilities to the limit; we float through stupendous canyons and open desert, pass mountains and abandoned villages; we flyfish for rainbow trout. We meet the people who live along the river, other adventurers, tourists. We wake up every morning to fresh views and the rewards of wilderness solitude. And finally we come to know this feisty curmudgeon who in his late sixties achieved the journey of a lifetime.--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc.
