World Yearbook of Education 2002 Elwyn Thomas, 2012-10-02 This text examines four key areas of teacher education. These are: theories, models and ideologies of teacher education; the control of teacher education by the state, and the role of schools and HE; cultural perspectives and the education of teachers; and continuities in teacher education.

Políticas de reforma del sistema educativo en los noventa Estela María Miranda, Silvia Senén González, Nora Z. Lamfri, 2003

Sociology of Education James Ainsworth, 2013-04-11 The sociology of education is a rich interdisciplinary field that studies schools as their own social world as well as their place within the larger society. The field draws contributions from education, sociology, human development, family studies, economics, politics and public policy. *Sociology of Education: An A-to-Z Guide* introduces students to the social constructions of our educational systems and their many players, including students and their peers, teachers, parents, the broader community, politicians and policy makers. The roles of schools, the social processes governing schooling, and impacts on society are all critically explored. Despite an abundance of textbooks and specialized monographs, there are few up-to-date reference works in this area. *Features & Benefits:* 335 signed entries fill 2 volumes in print and electronic formats, providing the most comprehensive reference resource available on this topic. *Cross-References and Suggestions for Further Reading* guide readers to additional resources. A thematic Reader's Guide groups related articles by broad topic areas as one handy search feature on the e-Reference platform, which also includes a comprehensive index of search terms, facilitating ease of use by both on-campus students and distance learners. A *Chronology* provides students with historical perspective on the sociology of education.

Teacher Education Elwyn Thomas, 2002 Focusing on values in education, these writings present current debates on fundamental issues. These include: who decides the values, what are the key accompanying issues, and what are their religious, moral and political dimensions and implications.

Infancias--políticas y saberes en la Argentina y Brasil, 2011 Este libro pretende constituirse en un aporte significativo para la consolidación del campo de estudios de infancia. Ofrece una visión actualizada de las líneas renovadas de

investigación sobre las políticas públicas dirigidas a la infancia en Argentina y Brasil desde una perspectiva histórica, antropológica y sociológica. Y se propone analizar esta problemática, que ha adquirido un creciente interés en América Latina, desde un enfoque poco frecuentado, como es el de la puesta en relación de los estudios realizados sobre la infancia, la familia y el Estado. En su conjunto, los capítulos abordan las políticas públicas para la infancia reconociendo el carácter esencialmente histórico de los problemas y los procesos que tal cuestión encierra, prestando especial atención a sus vinculaciones con las preocupaciones del presente. La propuesta supone una fuerte apuesta al diálogo interdisciplinario con la idea de enriquecer los enfoques teóricos y metodológicos, y valoriza los distintos contextos temporales y locales para analizar los saberes sobre la infancia y la intervención estatal sobre los niños. --Contratapa.
