A Taste of Broadway Jennifer Packard,2017-12-01 Beyond being just fuel for the body, food carries symbolic importance used to define individuals, situations, and places, making it an ideal communication tool. In musical theater, food can be used as a shortcut to tell the audience more about a setting, character, or situation. Because everyone relates to eating, food can also be used to evoke empathy, amusement, or shock from the audience. In some cases, food is central to show's plot. This book looks at popular musical theater shows to examine which foods are used, how they are used, why they are important, and how the food or usage relates to the broader world. Included are recipes for many of the foods that are significant in the shows discussed.

The Sixties, Center Stage James M. Harding,Cindy Rosenthal,2017-04-06 Challenges the notion that the theater of the 1960s falls neatly into two categories, mainstream or experimental

SongCite William D. Goodfellow,2014-02-04 First Published in 1999. American Musical Theatre Gerald Martin Bordman,1992 Gerald Bordman's American Musical Theatre has become a landmark book since its publication in 1978. It chronicles American musicals, show by show and season by season, and offers a running commentary and assessment as well as providing the basic facts about each production. This updated edition includes the new shows that have opened on Broadway since the original publication. Also included are over a hundred musicals that were turn-of-the-century, cheap-priced touring shows which never played Broadway, but were the training

ground for many theatre greats.

Saturday Review, 1961-07

A Structural Analysis of the American Musical Theatre Between 1955 and 1965 Barbara Means Fraser, 1982 The purpose of this study was to select a period in American history (1955-1965) and representative American musicals from the same period to compare the underlying values communicated through the American musical with the values within the American society. The ten year period was divided into three eras: 1955-1959 (The Eisenhower Years), 1960-1962 (The Kennedy Years), and 1963-1965 (a new Romanticism following the assassination of John Kennedy). Accompanying each of these eras was a randomly selected sample of American musicals and a selected sample of the longest running American musical of each year. The random sample between 1955 and 1965 includes: *Once Upon a Mattress*, *The Music Man*, *Flower Drum Song*, *Li'l Abner*, and *West Side Story*; between 1960 and 1962 includes: *Do Re Mi*, *Mr. President*, *The Unsinkable Molly Brown*, *Bye Bye Birdie*, and *How to Succeed in Business without Really Trying*; and between 1963 and 1965 includes: *Skyscraper*, *Here's Love*, *110 in the Shade*, *Man of La Mancha* and *Do I Hear a Waltz?* The selected sample includes the following musicals: *Damn Yankees*, *My Fair Lady*, *The Music Man*, *Flower Drum Song*, *The Sound of Music*, *The Fantasticks*, *How to Succeed in Business without Really Trying*, *A Funny Thing Happened on the Way to the Forum*, *Fiddler on the Roof*, and *Man of La Mancha*. A structural analysis of libretti and original Broadway or Off-Broadway cast's recordings revealed the values of the musical theatre world for comparison with the American values isolated by a collection of images, events, and themes from popular and historical documents. This study concluded that musicals are reflective of the American values of its era. This information and the process for discovering it should be useful to all producing artists of American musicals who may choose to adapt characters when negative values are being communicated or to emphasize positive values of the past. This study should help to make theatre artists realize that all dramatic creations communicate values; therefore artists and producers must be accountable for the values of the art they choose to practice.
