black mosaic Richard Kenyada,2014-05 In Black Mosaic: Essays for Post-Racial America, Richard Kenyada assesses the progress we've made in our quest to find the key element that unites us as Americans and, further, as human beings. The term post racialpopped up after the first Obama victory, but the mood of the country has not reflected that kind of hope. In many ways, Americans seem to be drawing their own lines in the sand. But it's no longer the historic us-against-them of the Cold War era. The lines are being drawn between Americans - races, classes, genders, and sexual orientation.

Al Sharpton Carl F. Horowitz,2025-02-07 In August 2014, a white police officer, acting in self-defense, shot to death an attacker, Michael Brown, a black youth in Ferguson, Missouri. Al Sharpton's rhetoric had much to do with the subsequent local rioting. This was nothing new. He had been applying his patented demagoguery to incidents with racial implications for decades, in his native New York City and elsewhere, under the guise of justice and civil rights. His many prominent supporters have catapulted him to the apex of American life. President Obama and President Biden regularly solicited his advice. Major corporations continue to donate money to his nonprofit National Action Network. Public sector employee unions fete him. Reverend Al is more subdued and dapper than in his earlier manic days. But that should not be cause for complacency. His proximity to power and regular news media presence make him ever more dangerous in these increasingly radicalized times.

The Assassinations James DiEugenio,Lisa Pease,2003-02-01 Probing deep into four hidden histories... the material released should dispel any notions of 'lone nuts' or coincidence... These articles cut a clear path through the thick jungle of disinformation that has grown around these events and expose the truly hideous teratomas that thrive and bloom under the canopy of 'national security.'—New York Press

Bullyocracy Donald Jeffries,2020-01-03 Bestselling author Donald Jeffries turns his critical eye onto the topic of bullying to show how teachers, principals, and other school officials invariably side with the bullies in the most egregious cases, instead of protecting the victims. He also shows how many so-called anti-bullying activists and nearly all the professional

experts excuse bullying and in fact laud sociopathic behavior in general. As Jeffries demonstrates, this curious phenomenon is due to the power and influence of the social hierarchy, and it revolves to a great extent around the enduring popularity of sports. Jeffries talked to parents who'd battled a system that logically should have been working for them, some of whom lost a child to bullycide, the term for children who kill themselves over bullying. His investigation into what has become one of the most talked about issues in America is as explosive and controversial as anything he has written.

Hybrids, Super Soldiers & the Coming Genetic Apocalypse Vol.2 Billy Crone,2020-04-09 What if I were to tell you that virtually every plant species known to mankind is on the verge of going out of existence? Then what if I were to inform you that all the animals on planet earth as we know them today are being genetically altered in ways that will have dreadful irreversible side effects? This book (Vol. 2) seeks to equip you the reader with the hardcore scientific evidence and Biblical warnings from God concerning this modern day annihilation of virtually all life forms on the planet.--Back cover.
