Practical Tools for Developing Transversal Skills in Vocational Education and Training Leire Escajedo San-Epifanio, Igor Filibi, 2023-05-23 With units that offer clear and synthetic theoretical guidelines, this book offers a set of very practical tools, mostly of the In-TRAY type, with which teachers of any family and grade of Vocational Education and Training (VET) can work directly with their students on transversal competences. The ZeharGAIT method, the basis of this proposal, and the 65 blocks of activities (with more than a hundred cases in total) have been tested with VET students and contrasted with teachers from different European countries. The activities have been grouped into different thematic units, offering teachers, in a clear and synthetic way, theoretical and practical elements. The units deal with teamwork, organisational relationships, interpersonal communication, managing emotions and conflict resolution. Each of the activities contains detailed instructions as well as directly downloadable elements for direct use in the classroom.
