Adaptation in Contemporary Culture Rachel Carroll,2009-11-30 A comprehensive interdisciplinary collection offering a survey of adaptation of literary texts across media including animation, film, TV, fan fiction, biopics and music video.

London, Queer Spaces and Historiography in the Works of Sarah Waters and Alan Hollinghurst Júlia Braga Neves,2022-10-07 Queer spaces are crucial for the construction of LGBTQ+ communities, as they constitute places where queer subjects can create political, social, and affective alliances. Júlia Braga Neves shows how these spaces are pivotal for the representation of queer history in the fictional works by the British authors Sarah Waters and Alan Hollinghurst, whose characters and plots are articulated through and within London's sexual geographies. Considering the intersection between gender, sexuality, and class, this study engages with spatial, queer, feminist, and Marxist theories as a means to reflect on London, queer historiography, and the relationship between subject and urban space.

Re-creating the Past: the Neo-Victorian Meaning in Sarah Waters' Neo-Victorian Novels Ariadna SERRANO BAILÉN,2014-05-09 Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, los tres artículos aquí presentados dan cuenta de la variedad de perspectivas posibles dentro de este apartado. No solo abarcan estos estudios diferentes géneros literarios, sino que recorren diferentes épocas históricas, desde el renacimiento hasta nuestros días. Así, destaca la recepción de la obra de Shakespeare adaptada a los principios estéticos del siglo XVIII español, la aparición de un problema tan actual como la violencia doméstica en el teatro y el cine de mediados del siglo XX o la vinculación de posicionamientos contraculturales de la generación Beat en la música de Bob Dylan. Todos estos estudios exploran, pues, la relación entre las prácticas culturales, la vida diaria y los contextos históricos en los que se producen. Como suele ser habitual, gran parte de las contribuciones presentadas en este volumen se centran en el estudio del aprendizaje del inglés como segunda lengua, una de las principales preocupaciones del sistema educativo español en estos momentos, tanto en la etapa preuniversitaria como universitaria. Es lógico, por tanto, que estos jóvenes investigadores muestren interés por un asunto que atañe a un elevado número de estudiantes en la sociedad actual. Los estudios van desde el análisis de libros de texto utilizados en la enseñanza del inglés, para comprobar si estos textos adoptan correctamente las cuatro destrezas básicas (listening, speaking, speaking, writing) al aprendizaje de la lengua desde el punto de vista de una aproximación comunicativa, hasta la relación de la prosodia y la utilización de audífonos por parte de personas sordas o la

percepción que tienen los estudiantes de la pronunciación del inglés. Como se ve, problemas muy cercanos a la realidad pedagógica. Las contribuciones literarias se centran exclusivamente en autores del siglo XX (incluida una adaptación al Londres actual de una obra de Shakespeare), pero recorren todos los géneros literarios, así como el cine. En general, estos estudios se fijan en obras concretas y las analizan desde perspectivas culturales, sociológicas o psicológicas. Podemos encontrar autores consagrados, como Theodore Roethke y Ted Hughes o escritoras más localistas, como la canadiense Jeannette Armstrong, y sobresalen miradas postmodernistas, tanto en el ámbito de la novela como del cine. En definitiva, se trata de una selección de artículos altamente prometedora, que supone un claro desafío al futuro de los Estudios Ingleses. Por todo ello, hay que felicitar a todos los participantes y, sobre todo, a los editores de este volumen, que han demostrado una enorme capacidad de trabajo y entusiasmo.

Studies in the Victorian and Neo-Victorian Novel Adrian Radu, 2024-02-29 Readers of the nineteenth century novel expected literature to be a form journalism and fictional history. They wanted to read about easily identifiable situations with a chronological, straightforward and easily discernible development of plot, familiar backgrounds and credible characters. About a hundred years later, the Victorian novel became the great tradition, omnipresent and reliable. However, today the age and the context are different, and novels need more substance, including such themes as memory, race and empire, sex and science, spectrality and the heritage industry or key issues like gender, sexuality, and postmodernism. All these elements are considered Neo-Victorian which, in spite of their novelty, do point to a certain Victorian “anchor”. This volume contains ten studies, the substance of which is the analysis of novels that, according to their date of publication, are products of the Victorian and Neo-Victorian periods as defined above. The authors investigate and discuss Victorian roots and characteristics, preserved or recycled Victorian themes, Neo-Victorian characters and motifs, or any other characteristics that may label them as Victorian or Neo-Victorian products.

Authenticity Patrick Finney, 2020-04-28 The pursuit of authenticity is a contemporary obsession. From hipster fixations on artisan coffee and vintage clothing through to the electoral success of supposedly unspun populist politicians like Donald Trump, a yearning for the real pervades our culture. Yet while highly prized and desired, authenticity is also profoundly elusive and contested. This volume stages a wide-ranging interdisciplinary interrogation of the concept, with case studies ranging from collective memory of the Second World War, through the historical fiction of Sarah Waters to the confessional art of Tracey Emin. With contributors drawn from memory studies, cultural history, English literature, theatre studies, and art criticism, it explores how authenticity is in play in diverse practices of reading, remembering, and performing. The chapters demonstrate that authenticity has no single stable definition, but is rather invoked in very diverse ways – both descriptively and prescriptively – in many diverse contexts. They also make clear that it is not an inherent quality but the product of orchestration, performance, and inter-subjective negotiation. This book was originally published as a special issue

of Rethinking History.

The trials and tribulations of adapting a novel for the small screen on the example of Sarah Waters' "Tipping the Velvet"
Marie Will, 2023-06-30 Seminar paper from the year 2019 in the subject English Language and Literature Studies - Literature, grade: 1,0, University of Potsdam (Institut für Anglistik und Amerikanistik), course: Neo-Victorianism, language: English, abstract: In order to make their product appealing to as many viewers as possible, filmmakers often change elements in the source material they are adapting. With *Tipping the Velvet*, two particular scenes from the novel were modified so that a larger audience could be reached. In this paper, I aim to show what changes were made in the TV adaptation of Waters' novel and how these changes affected the target audience. When asked to imagine the Victorian era, most people immediately think about upper-class, uptight ladies and gents in uncomfortable clothing, who's general repressiveness forbade them to talk about anything personal, much less romantic or even sexual. In fact, when looking up "prude" in the Thesaurus, the first word that is listed under synonyms is "Victorian" (cf. "Prude"). Sarah Waters' novel *Tipping the Velvet* about a young woman from the countryside who falls in love with a male impersonator, moves to London with her and goes on to search for her sexual and gender identity does not seem to fit this picture. However, when looking more closely, the Victorian era was not as prudish as we like to think. At only 32, Waters, with her first publication, "revolutionised gay literature" by creating a narrative that "imagine[d] a Victorian lesbian history through the sexual adventures of cross-dressing" (Allfree). This was something entirely new for the wide readership. Although a fair share of fictional as well as non-fictional work on Victorian sexualities had been published during the 20th century, and there even existed contemporary Victorian writing on this topic - as Waters points out in the afterword of the 20th anniversary edition (cf. Waters 474) - none of these works had gained such a wide recognition by literary critics as well as the public. Following its huge success, Waters' novel was quickly adapted for the small screen. The 2002 BBC adaptation of *Tipping the Velvet* mostly follows the plot as it was constructed by Waters with only small differences. A simple - yet not entirely wrong - answer to the question of why the TV series was watched by so many people would be accessibility. But is that really the only reason why the TV program reached so many more people compared to the already widely read and highly acclaimed novel?

English Studies, 2004

The Oxford Dictionary of Idioms Judith Siefring, 2004 Did you know that 'flavor of the month' originated in a marketing campaign in American ice-cream parlors in the 1940s, when a particular flavor would be specially promoted for a month at a time? And did you know that 'off the cuff' refers to the rather messy practice of writing impromptu notes on one's shirt cuff before speaking in public? These and many more idioms are explained and put into context in this second edition of the *Oxford Dictionary of Idioms*. The volume takes a fresh look at the idiomatic phrases and sayings that make English the rich and intriguing language that it is. This major new edition contains entries for over 5000 idioms, including 350 entirely new

entries and over 500 new quotations. The text has been updated to include many new idioms using the findings of the Oxford English Reading Program, the biggest language research program in the world. The entries are supported by a wealth of illustrative quotations from a wide range of sources and periods and the text has been entirely redesigned so that it is both elegant and easy to use. Anyone interested in the colorful side of the English language will get hours of fun browsing this fascinating and informative volume.

Multiple Meanings of Gender Equality Mieke Verloo, 2007 This book aims to map the diversity of meanings of gender equality across Europe and reflects on the contested concept of gender equality. In its exploration of the diverse meanings of gender equality it not only takes into account the existence of different visions of gender equality, and the way in which different political and theoretical debates crosscut these visions, but also reflects upon the geographical contexts in which visions and debates over gender equality are located. The contextual locations where these visions and debates take place include the European Union and member states such as Austria, the Netherlands, Hungary, Slovenia, Greece, and Spain. In all of these settings, the different meanings of gender equality are explored comparatively in relation to the issues of family policies, domestic violence, and gender inequality in politics, while specific national contexts discuss the issues of prostitution (Austria, Slovenia), migration (the Netherlands), homosexual rights (Spain), and antidiscrimination (Hungary). The multiple meanings of gender equality are studied through Critical Frame Analysis, a methodology that builds on social movement theory and that was refined further with elements of gender and political theory within the context of the MAGEEQ research project
