Whether you are religious or not, this fear is usually reinforced with age, as the nothingness of the afterlife makes our lives in the present appear meaningless. 2) We have envisioned an afterlife which poses questions about its appearance, features, and objective. Merging our soul and human brain produces our soul identity, which leads to the spiritual gateway that can answer afterlife questions. The Synchronicity Key David Wilcock,2014-07-29 Unlock the key to a universal life-force in this astonishing book from

the New York Times bestselling author of *The Source Field Investigations* and *Awakening in the Dream*. *The Source Field Investigations* was a New York Times, Wall Street Journal, and USA Today bestseller that uncovered hidden science and lost prophecies to illuminate an entirely new understanding of our world today. Now, in *The Synchronicity Key*, David Wilcock embarks on an astonishing investigation into what lies beyond—finding proof that everything in our lives is not only connected, but it also influences everything else. Using history, astrology, and synchronicity theory among other concepts, Wilcock shows that there is hidden architecture within time, guiding individuals and nations through a system of enlightenment Joseph Campbell called the Hero's Journey. Historical events occur in shockingly precise, repeating cycles of time as a result. Once we understand and identify the hidden laws of this seemingly random “synchronicity,” we are left with a remarkable blueprint of how best to lead our lives in this uncertain and confusing world.

Aspirations of the Soul Susan M. Obijiski, Why are we here? At some point in life, everyone wonders about their purpose. Given the sometimes challenging and perplexing circumstances of most human beings, it is a natural thing to ponder. We are not issued an instruction booklet or a user manual when we are born. So how can we understand the meaning of life? Maybe the very things that we need to learn are embedded in the obstacles we face during our lifetime. We see struggles, challenges, and trauma as painful and difficult. But perhaps these situations are meant to teach us lessons: lessons that we planned to learn. What if these lessons were planned so that we can discover patience, compassion, and trust, as well as other values and virtues? *Aspirations of the Soul* explores pre-birth planning, the purpose of life, and the how and why of our life plan. Our soul has a plan, and that plan includes our most difficult challenges, closest relationships, and the time, place, and manner in which we live our lives. Isn't it time to reconnect to your soul and discover your “why?”

Tales From the Afterlife Fiona Bowie, 2011-03-16 *Tales From the Afterlife* takes the reader on an imaginative journey through death to the life that awaits us all on the other side. Our beliefs thoughts and expectations have a powerful influence on the ease with which we make that transition although help and guidance is always on hand. The ten scenarios presented here present a coherent and remarkably consistent picture of the non physical world. The result is a powerful affirmation that consciousness survives the death of the physical body and that the meaning and purpose of live is to grow in love.

Leading Mind Peter Hey, 2019-02-14 With his blend of engineering and the fields of personal transformation, Peter Hey takes us on a deep, yet accessible journey into the inner recesses of our minds. He presents a unique model of the mind and the mechanisms that define our behavior. Based on his own personal experiences as the son of a Holocaust survivor, his sessions with his own clients and his background in computer design, he brings the concept of programs in our unconscious as the basic mechanism that determines our actions. Millions of programs operating below our everyday awareness, each of them associated with emotions that, in fact, are the actual power behind our decisions in daily life. Leading Mind explains how these programs are created from all our experiences, starting already at conception, through our time in the mother's womb, all the way to full adulthood. It also shows how, when accessing our deep unconscious, we discover aspects in us that transcend our current physical life. Based on thousands and thousands of sessions done by practitioners around the world, with remarkably consistent results across cultures, education, social status and personal beliefs. Leading Mind shows how the current events that are impacting our civilization nowadays are the result of our emotional ignorance. It brings to light an urgent call to reform our educational curriculum to teach how our mind works and tools for personal transformation and conflict resolution. Understanding our minds brings tolerance and compassion for all. It gives us the knowledge to change our limiting behaviors. The start of real personal power to direct our lives in the direction that is our authentic individual expression.

Reincarnation in America Lee Irwin, 2017-07-31 Reincarnation in America: An Esoteric History surveys the complex history of reincarnation theories across multiple fields of discourse in a pre-American context, ranging from early Greek traditions to Medieval Christian theories, Renaissance esotericism, and European Kabbalah, all of which had adherents that brought those theories to America. Rebirth theories are shown in all these groups to be highly complex and often disjunctive with mainstream religions even though members of conventional religions frequently affirm the possibility of rebirth. As a history of an idea, reincarnation theory is a current, vital belief pattern that cuts across a wide spectrum of social, cultural, and scientific domains in a long, complex history not reducible to any specific religious or theoretical explanation. This book is cross-disciplinary and multicultural, linking religious studies perspectives with science based research; it draws upon many distinct disciplines and avoids reduction of reincarnation to any specific theory. The underlying thesis is to demonstrate the complexity of reincarnation theories; what is unique is the historical overview and the gradual shift away from religious theories of rebirth to new theories that are therapeutic and trans-traditional.

Michael Newton's *Destiny of Souls* In *Destiny of Souls* (2009), hypnotherapist Michael Newton presents his vision of the spirit world and how it works. Based on case studies of his patients, Newton answers pressing questions about the life of a soul in the spirit world: its birth, incarnation, reincarnation, and development both on Earth and beyond. After death on Earth, the soul travels back to the spirit world where it joins its soul group and there evolves, learns, socializes, and prepares for its next incarnation. But the activity of souls is not limited to the spirit world. They also take part in life on Earth as visitors or helpers and assist humans in their spiritual journeys.

The Experience of a Lifetime Carolyn North, 1998 Every one of us, without exception, is going to die. Yet most of us are fearful, in denial, or determined to beat the odds. Perhaps there is another way to confront our inevitable destiny. Could we not regard death as one stage of a natural life-death-life cycle in which what we call death is but one aspect of a larger life? Here are the stories of four people -- two men and two women -- whom the author accompanied as a healer as they prepared for their passages. It is about their experience, and about her experience as she watched them decline physically and emerge spiritually. It is about the caregiver's role and the reactions of family and friends; it is about resistance and accepting and coping. It is about the mortality that all of us must face -- about preparing for death physically, emotionally, psychologically, and spiritually. And at its deepest level, it is about learning how to love.

Peaceful Transition Bruce Goldberg, 1997 Describes the use of a technique called the conscious-out-of-body- experience (COBE); which is distinguished from the near death experience, a form of unconscious dying. Author claims anyone can learn this technique to merge with their higher self at the time of death.
