Project Hail Mary exemplifies hard science fiction, combining Weir's characteristic wit, scientific precision, and speculative exploration, particularly focusing on humanity's encounter with extraterrestrial life. Notably, a cinematic adaptation of the novel was secured in 2020. The narrative centers on Dr. Ryland Grace, a middle school science teacher, who awakens aboard the Hail Mary spacecraft with complete amnesia. He finds himself as the sole survivor of a crew of three, embarked on an interplanetary journey in the near future. Through

gradual recollection, Grace reconstructs his involvement in Project Hail Mary, a mission spanning 12 light-years aimed at rescuing humanity from the threat posed by the Tau Ceti solar system. The Earth faces a dire predicament as its sun becomes infected by Astrophage, an extraterrestrial organism utilizing infrared light emission to traverse a migratory path dubbed the Petrova Line, stretching from the sun to Venus. This infection spells disaster for humanity, with only 26 years remaining until agricultural collapse, famine, and environmental upheaval decimate the global population, leading to imminent extinction. Grace is tasked with unraveling why Tau Ceti remains unaffected by Astrophage and transmitting crucial data back to Earth to safeguard civilization's survival.

of [The Martian]. Korean edition translated by Gang Dong Hyeok.

The Martian Andy Weir, 2014-02-11 #1 NEW YORK TIMES BESTSELLER • “Brilliant . . . a celebration of human ingenuity [and] the purest example of real-science sci-fi for many years . . . utterly compelling.”—The Wall Street Journal The inspiration for the major motion picture Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he’s sure he’ll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he’s alive—and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won’t have time to starve to death. The damaged machinery, unforgiving environment, or plain-old “human error” are much more likely to kill him first. But Mark isn’t ready to give up yet. Drawing on his ingenuity, his engineering skills—and a relentless, dogged refusal to quit—he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him? NAMED ONE OF PASTE’S BEST NOVELS OF THE DECADE “A hugely entertaining novel [that] reads like a rocket ship afire . . . Weir has fashioned in Mark Watney one of the most appealing, funny, and resourceful characters in recent fiction.”—Chicago Tribune “As gripping as they come . . . You’ll be rooting for Watney the whole way, groaning at every setback and laughing at his pitchblack humor. Utterly nail-biting and memorable.”—Financial Times

Artemis Andy Weir, 2018-07-03 NEW YORK TIMES BESTSELLER • From the renowned author of Project Hail Mary and The Martian comes a “propulsive” (NPR) tale of science, suspense, and humor—a heist story set on the moon. “An action-packed techno-thriller of the first order.”—USA Today Jasmine Bashara never signed up to be a hero. She just wanted to get rich. Not crazy, eccentric-billionaire rich, like many of the visitors to her hometown of Artemis, humanity’s first and only lunar colony. Just rich enough to move out of her coffin-sized apartment and eat something better than flavored algae. Rich enough to pay off a debt she’s owed for a long time. So when a chance at a huge score finally comes her way, Jazz can’t say no. But engineering the perfect crime is just the start of her problems—because her little heist is about to land her in the middle of a conspiracy for control of Artemis herself. Trapped between competing forces, pursued by a killer and the law alike, she’ll have to hatch a truly spectacular scheme to have a chance at staying alive and saving her city. Jazz is no hero, but she is a very good criminal. That’ll have to do.
