Cambio y proyecto urbano Gerardo Martínez Delgado, 2009 When and why do they change cities? Among a variety of reasons that help answer these questions, the book explores the ideas, architecture, values, aspirations and projects of the elite, one of its most original and explanations for a phenomenon with which we face every day in our cities. Throughout the pages will explore facets of the city seeking a Latin American perspective and using sources such as news, photos and analysis and reconstruction plans, the text explores the actors and the reasons for the change in the case of the city of

Aguascalientes in the late nineteenth and early.

El pan nuestro: Una historia de la tortilla de maíz Aurora Gómez,2025-02-19 La tortilla de maíz ha sido el principal alimento de los mexicanos desde hace aproximadamente 2200 años. Esta obra aborda las permanencias y los cambios en su producción y consumo a lo largo del tiempo, así como su impacto sobre la sociedad. La tortilla de maíz se produjo con las mismas técnicas hasta finales del siglo XIX, mediante un trabajo cotidiano e intenso realizado exclusivamente por mujeres. Este libro estudia las causas del prolongado estancamiento tecnológico y la manera en la que algunos inventores, principalmente mexicanos, fueron desarrollando los molinos de nixtamal, las máquinas tortilladoras y la harina de maíz nixtamalizado que, al cabo del siguiente siglo, transformarían las tortillas y la forma de elaborarlas. La obra muestra el papel fundamental que jugaron las mujeres para alimentar a la población, los cambios profundos que tuvieron lugar en sus vidas una vez que las nuevas tecnologías fueron difundándose y su importante gestión para adoptarlas. Estudia también las empresas dedicadas a la producción de tortillas e insumos, así como las políticas públicas que fomentaron la industrialización y homogenización de la tortilla y la oligopolización de su mercado. Las nuevas tecnologías aumentaron la disponibilidad de alimentos, facilitaron el crecimiento económico y demográfico, y ampliaron las oportunidades de las mujeres. Sin embargo, la forma como fueron utilizadas dichas innovaciones —definidas por la interacción entre gobierno y empresas— limitaron su potencial para lograr una prosperidad inclusiva y sustentable.
