Pranksters Kembrew McLeod, 2014-04-01 From Benjamin Franklin's newspaper hoax that faked the death of his rival to Abbie Hoffman's attempt to levitate the Pentagon, pranksters, hoaxers, and con artists have caused confusion, disorder, and laughter in Western society for centuries. Profiling the most notorious mischief makers from the 1600s to the present day, *Pranksters* explores how "pranks" are part of a long tradition of speaking truth to power and social critique. Invoking such historical and contemporary figures as P.T. Barnum, Jonathan Swift, WITCH, The Yes Men, and Stephen Colbert, Kembrew McLeod shows how staged spectacles that balance the serious and humorous can spark important public conversations. In some instances, tricksters have incited social change (and unfortunate prank blowback) by manipulating various forms of media, from newspapers to YouTube. For example, in the 1960s, self-proclaimed "professional hoaxer" Alan Abel lampooned America's hypocritical sexual mores by using conservative rhetoric to fool the news media into covering a satirical organization that advocated clothing naked animals. In the 1990s, Sub Pop Records then-receptionist Megan Jasper satirized the commodification of alternative music culture by pranking the New York Times into reporting on her fake lexicon of "grunge speak." Throughout this book, McLeod shows how pranks interrupt the daily flow of approved information and news, using humor to underscore larger, pointed truths. Written in an accessible, story-driven style, *Pranksters* reveals how mischief makers have left their shocking, entertaining, and educational mark on modern political and social life.

Values for a Post-Pandemic Future Matthew J. Dennis, Georgy Ishmaev, Steven Umbrello, Jeroen van den Hoven, 2022-09-13 This open access book shows how value sensitive design (VSD), responsible innovation, and comprehensive engineering can guide the rapid development of technological responses to the COVID-19 crisis. Responding to the ethical challenges of data-driven technologies and other tools requires thinking about values in the context of a pandemic as well as in a post-COVID world. Instilling values must be prioritized from the beginning, not only in the emergency response to the pandemic, but in how to proceed with new societal precedents materializing, new norms of health surveillance, and new public health requirements. The contributors with expertise in VSD bridge the gap between ethical acceptability and social acceptance. By addressing ethical acceptability and societal acceptance together, VSD guides COVID-technologies in a way that strengthens their ability to fight the virus, and outlines pathways for the resolution of moral dilemmas. This volume provides diachronic reflections on the crisis response to address long-term moral consequences

in light of the post-pandemic future. Both contact-tracing apps and immunity passports must work in a multi-system environment, and will be required to succeed alongside institutions, incentive structures, regulatory bodies, and current legislation. This text appeals to students, researchers and importantly, professionals in the field.

Journalism and the Coronavirus Pandemic Thorsten Quandt, Karin Wahl-Jorgensen, 2025-02-13 This book explores how the Covid-19 pandemic triggered profound changes in the practice and consumption of digital journalism. Featuring original research from around the globe, the volume examines key challenges of covering the pandemic from Zimbabwe to China and the UK. The research shows that the pandemic amplified threats to press freedom. At the same time, it took an emotional toll on journalists, who worried about their exposure to Covid-19 and dealt with challenges associated with a growing reliance on digital tools, as well as difficulties accessing sources and hostile reactions from audiences. Charting the consequences of an increasingly complex media ecosystem, the volume addresses the rise of distrust in mainstream media, the influence of “alternative” news outlets, and the surge of misinformation and conspiracy theories. The volume also examines the polarized reactions of audiences and the complex relationship between public trust, government actions, and journalistic organisations. Despite the challenges, there are signs of increased audience engagement with news, pointing to a potential positive shift in journalism’s societal role. This volume is essential reading for scholars and students in media and journalism studies seeking a comprehensive understanding of how the pandemic reshaped digital journalism. The chapters in this book were originally published as a special issue of Digital Journalism.

Dorothy Day: A Biography Sidot Jean Avignon, 2012-05-15 Dorothy Day was an author and activist who fought tirelessly for women's equality and socialist causes during the early part of the 20th century as well as other social causes during the latter half of the 1900s. She also was one of the leaders of the Catholic Workers' Movement, which was the first organization to involve the Roman Catholic Church in social activism. Without Day's contributions to American history, modern America might be a very different country than most people know it to be, as she was instrumental in achieving freedom and equality for many groups of Americans. Impressively, Day lived to be almost 100 years old and fought for social equality throughout her life. By studying her life, one can see the changing landscape of American society and the different issues that needed to be addressed to make America truly the free country it had been created to be. Dorothy Day fought for women's equality as a young woman and protested against the Vietnam War as an older one, making her a unique and interesting figure in American history. She lived through the women's suffrage movement, the Great Depression, both World Wars, the African-American civil rights movement and the Vietnam War - and was involved in social action related to all of these events.

Proofs of the New World Order M S King,2018-12-12 At one time or another, each of us has encountered what one might call a conspiracy theorist warning us about a dark and sinister plot among global elites to take over the world. There seems to be one such character in every extended family, or in every workplace. You may have laughed and mocked such individuals as being paranoid or gullible, but there is no denying their conviction and passion. But what if the existence of the centuries-old movement toward a One World utopia (as some of its starry-eyed supporters describe it) or a One World tyranny (as its freedom-loving critics would describe it) could be confirmed for you not by crazy Uncle Charlie; but rather, by the actual words of powerful and famous men and women from the world of politics, academia and journalism --- both pro-NWO and anti-NWO? Would that cause you to perk up your ears and listen? Logically speaking, it is no longer a conspiracy theory if they actually admit it, right? Digest this collection of actual, verifiable quotes. Think about them, and match them up against what you see going on in the world today. If the quotes stimulate your curiosity, then be sure to read Planet Rothschild, Volumes 1 & 2 (ordering instructions at end of pamphlet). Maybe, crazy Uncle Charlie is on to something, after all?

Once Upon A Virus Diane Goldstein,2004-08 Out to see America and satisfy his travel bug, W. T. Pfefferle resigned from his position as director of the writing program at Johns Hopkins University and hit the road to interview sixty-two poets about the significance of place in their work. The lively conversations that resulted may surprise with the potential meanings of a seemingly simple concept. This gathering of voices and ideas is illustrated with photo and word portraits from the road and represented with suitable poems. The poets are James Harms, David Citino, Martha Collins, Linda Gregerson, Richard Tillinghast, Orlando Ricardo Menes, Mark Strand, Karen Volkman, Lisa Samuels, Marvin Bell, Michael Dennis Browne, David Allan Evans, David Romtvedt, Sandra Alcosser, Robert Wrigley, Nance Van Winckel, Christopher Howell, Mark Halperin, Jana Harris, Sam Hamill, Barbara Drake, Floyd Skloot, Ralph Angel, Carol Muske-Dukes, David St. John, Sharon Bryan, Donald Revell, Claudia Keelan, Alberto Rios, Richard Shelton, Jane Miller, William Wenthe, Naomi Shihab Nye, Peter Cooley, Miller
