The Analyst Allen Mesch, 2010-08-09 When Professor Russell Conrad received a call to fly to Washington, he didn't expect that he would find himself in Saudi Arabia trying to rescue the President and prevent a nuclear war. After Conrad is summoned to Washington he finds himself on Air Force One as part of an American delegation to a secret peace conference in Saudi Arabia. President Omar Sanjar's hopes of forming a lasting Middle East peace are shattered when the American delegation is kidnapped. Their captors' ransom demands present a moral dilemma that threatens to plunge the Middle East into a nuclear war. Conrad's role is transformed from CIA advisor to agent as he tries to rescue Sanjar and warn Israel of the impending missile attack.

Divided City Kai Bird, 2010-07-08 Crossing Mandelbaum Gate is a vivid memoir of an American boy growing up in the midst of the Arab-Israeli conflict, three major wars and three decades of political upheavals in the Middle East. Set in Jerusalem (1956-1958), Beirut (1970), Saudi Arabia (1962-1965), Amman and Cairo (1965-1967), Bird's book explains through a blend of memoir and history why the Western experience in the Middle East has been so turbulent. Through Bird's Zelig-like presence, the reader experiences the Suez War of 1956, the June 1967 War and the Black September hijackings of 1970 that led to the Jordanian Civil War. Bird's memoir shows how all of these momentous events led to the rise and tragic downfall of a secular Arab nationalist ethos -- only to be replaced by the rise of a fundamentalist, politically reactionary Islamist movement. The narrative history tells the stories of such illuminating figures as life-long Jerusalem resident George Antonius, author of *The Arab Awakening*, and his charismatic wife; Jordan's King Hussein and his CIA connections; the businessman Salem bin Laden, Osama's older brother and a family friend; Saudi kings Faisal and Khalid; President Nasser of Egypt; and Leila Khaled, the striking young Palestinian radical who hijacked one of the Black September planes. The son of a U.S. Foreign Service officer, Kai Bird spent his formative years with the Arabs, but he ended up marrying the only daughter of two Holocaust survivors. This Shoah survival story becomes a part of Bird's own personal narrative, and provides him with a deeper understanding of the historical relationship between the destruction of European Jewry and the Arab-Israeli conflict. This extraordinary memoir by a Pulitzer-prize-winning historian sheds new light on all the wars of the Middle East fought in the name of identity.

Crossing the Kingdom Loring M. Danforth, 2016-03-29 For many people, the Kingdom of Saudi Arabia evokes images of deserts, camels, and oil, along with rich sheikh in white robes, oppressed women in black veils, and terrorists. But when Loring Danforth traveled through the country in 2012, he found a world much more complex and inspiring than he could

have ever imagined. With vivid descriptions and moving personal narratives, Danforth takes us across the Kingdom, from the headquarters of Saudi Aramco, the country's national oil company on the Persian Gulf, to the centuries-old city of Jeddah on the Red Sea coast with its population of undocumented immigrants from all over the Muslim world. He presents detailed portraits of a young woman jailed for protesting the ban on women driving, a Sufi scholar encouraging Muslims and Christians to struggle together with love to know God, and an artist citing the Quran and using metal gears and chains to celebrate the diversity of the pilgrims who come to Mecca. Crossing the Kingdom paints a lucid portrait of contemporary Saudi culture and the lives of individuals, who like us all grapple with modernity at the dawn of the twenty-first century.

Politics of the Modern Arab World Laleh Khalili,2009 This four-volume collection of cutting-edge and canonical scholarship counters the oft-cited opinion that studies of Middle Eastern politics are devoid of social scientific theory and method by providing an overview of the state of the scholarship in the field, innovations therein, and the debates that have advanced knowledge in the field. The collection covers the Arab world, from Morocco to the borders of Iran, with the focus primarily on the twentieth century, and especially the post-Second World War era. By choosing a wide array of authors, many of whom are from the region or from the non-Anglophone world, the full breadth of worldwide scholarship on the modern Arab world is on display. The collection defines politics broadly - in line with the most innovative current works in the field of political studies - to include not only politics at the state level, but also the public, social, and popular domains that define and shape (and are in turn defined and shaped by) politics.

Oil and Labor in the Middle East Peter N. Woodward,1988-08-12 Based on the author's first-hand research and experience in Saudi Arabia, this monograph presents a highly readable account of the internationalization of the Middle East's labor force during and after the oil boom of 1973-83. Written from the perspective of an active participant rather than that of an academic observer, Oil and Labor in the Middle East analyzes the expatriate workers' world and the multinational

companies employing them. It will prove particularly valuable to readers -- business executives, workers, government representatives, and labor leaders -- involved in the exchange of labor across national borders.. Woodward demonstrates that the treatments influx of foreign workers into the Middle East during the oil boom created a complex supranational world of people and corporations -- and an inevitable clash of cultural, economic, and political perspectives. He explores facets of the expatriate experience that have received little treatment elsewhere: the labor pyramid, the relationship between expatriate and host country labor force, the commercial/industrial environment, bargaining position and risk, and the governments of countries sending labor overseas. Finally, Woodward examines individual considerations critical to the decision to become an expatriate worker: personal motivation, living conditions, cultural differences, salaries, and the value of savings.
