Writing the Bible Thomas Römer, Philip Davies, 2016-06-16 For many years it has been recognized that the key to explaining the production of the Bible lies in understanding the profession, the practice and the mentality of scribes in the ancient Near East, classical Greece and the Greco-Roman world. In many ways, however, the production of the Jewish literary canon, while reflecting wider practice, constitutes an exception because of its religious function as the written word of God, leading in turn to the veneration of scrolls as sacred and even cultic objects in themselves. Writing the Bible brings together the wide-ranging study of all major aspects of ancient writing and writers. The essays cover the dissemination of texts, book and canon formation, and the social and political effects of writing and of textual knowledge. Central issues discussed include the status of the scribe, the nature of 'authorship', the relationship between copying and redacting, and the relative status of oral and written knowledge. The writers examined include Ilimilku of Ugarit, the scribes of ancient Greece, Ben Sira, Galen, Origen and the author of Pseudo-Clement.

The Understanding Scribe David Orton, 2004-12-30 Matthew's sharpening of Jesus' attacks on the scribes and Pharisees is an embarrassment to many Christian interpreters and an outrage to some Jewish ones. It is commonly alleged that Matthew in fact has no particular knowledge of distinctions between the Jewish leadership groups. In a fresh examination of Matthew's treatment of the scribes, the author argues that the first Evangelist is actually at pains to protect the esteem in which the office of the Jewish scribe itself was traditionally held, reserving Jesus' direct criticism for the unenlightened Pharisees.

Scribes and Scripture John D. Meade, Peter J. Gurry, 2022-09-16 Answers to Common Questions about the Writing, Copying, Canonizing, and Translating of the Bible There are many common questions and misconceptions surrounding the formation and history of the Bible: Why is the Bible composed of the current 66 books instead of others? Why are there so many translations? How are we to understand both the human and divine elements of the Bible? In Scribes and Scripture, scholars John D. Meade and Peter J. Gurry answer these questions and give readers tools to interpret the evidence about God's word. Beginning with the history of the Bible—from the invention of the alphabet to the most recent English translations—the book focuses on three main areas: the writing and copying of the Bible, the canonization of the Bible, and the translation of the Bible. Using Old and New Testament scholarship, Meade and Gurry help God's people better appreciate

the story of the Bible as a way to better appreciate the stories in the Bible. Engaging Visual Content: Contains maps, charts, sidebars, and pictures Collaboration of Old Testament and New Testament Scholarship: Written by experts in both Old Testament (Meade) and New Testament (Gurry) textual scholarship Answers Common Questions: Specifically regarding textual criticism, the canon, and Bible translations

The Finger of the Scribe William M. Schniedewind, 2019-10-14 One of the enduring problems in biblical studies is how the Bible came to be written. Clearly, scribes were involved. But our knowledge of scribal training in ancient Israel is limited. William Schniedewind explores the unexpected cache of inscriptions discovered at a remote, Iron Age military post called Kuntillet 'Ajrud to assess the question of how scribes might have been taught to write. Here, far from such urban centers as Jerusalem or Samaria, plaster walls and storage pithoi were littered with inscriptions. Apart from the sensational nature of some of the contents-perhaps suggesting Yahweh had a consort-these inscriptions also reflect actual writing practices among soldiers stationed near the frontier. What emerges is a very different picture of how writing might have been taught, as opposed to the standard view of scribal schools in the main population centers.

Who Really Wrote the Bible William M. Schniedewind, 2024-06-18 A groundbreaking new account of the writing of the Hebrew Bible Who wrote the Bible? Its books have no bylines. Tradition long identified Moses as the author of the Pentateuch, with Ezra as editor. Ancient readers also suggested that David wrote the psalms and Solomon wrote Proverbs and Qohelet. Although the Hebrew Bible rarely speaks of its authors, people have been fascinated by the question of its authorship since ancient times. In *Who Really Wrote the Bible*, William Schniedewind offers a bold new answer: the Bible was not written by a single author, or by a series of single authors, but by communities of scribes. The Bible does not name its authors because authorship itself was an idea enshrined in a later era by the ancient Greeks. In the pre-Hellenistic world of ancient Near Eastern literature, books were produced, preserved, and passed on by scribal communities. Schniedewind draws on ancient inscriptions, archaeology, and anthropology, as well as a close reading of the biblical text itself, to trace the communal origin of biblical literature. Scribes were educated through apprenticeship rather than in schools. The prophet Isaiah, for example, has his “disciples”; Elisha has his “apprentice.” This mode of learning emphasized the need to pass along the traditions of a community of practice rather than to individuate and invent. Schniedewind shows that it is anachronistic to impose our ideas about individual authorship and authors on the writing of the Bible. Ancient Israelites didn’t live in books, he writes, but along dusty highways and byways. *Who Really Wrote the Bible* describes how scribes and their apprentices actually worked in ancient Jerusalem and Judah.

Understanding Matthew - Using Semitic Bible Study Methods Michael Harvey Koplitz, This commentary was researched and written using Semitic Bible Study Methods, Aramaic (the language Yeshua spoke), and the culture of Yeshua's day. These methods were initially developed by the Sage Hillel over 2000 years ago augmented and the author. Semitic Bible study methods are based on asking questions about the Scripture, examining the language and culture of that day. This is a strange idea for church people because the Church teaches that only the Church can interpret Scripture. This is not true. God wants us to ask questions because Scripture's meaning is as deep as God, and God is infinite.

Scribes and Schools Philip R. Davies, 1998-01-01 *Scribes and Schools* is an examination of the processes which led to the canonization of the Hebrew Bible. Philip Davies sheds light on the social reasons for the development of the canon and in so doing presents a clear picture of how the Bible came into being. Volumes in the Library of Ancient Israel draw on multiple disciplines--such as archaeology, anthropology, sociology, linguistics, and literary criticism--to illuminate the everyday realities and social subtleties these ancient cultures experienced. This series employs sophisticated methods resulting in original contributions that depict the reality of the people behind the Hebrew Bible and interprets these insights for a wide variety of readers.
