Speaking Spanish in the US Janet M. Fuller, Jennifer Leeman, 2020-06-02 This book introduces readers to basic concepts of sociolinguistics with a focus on Spanish in the US. The coverage goes beyond linguistics to examine the history and politics of Spanish in the US, the relationship of language to Latinx identities, and how language ideologies and policies reflect and shape societal views of Spanish and its speakers. Accessible to those with no linguistic background, this book provides students with a foundation in the study of language and society, and the opportunity to relate theoretical concepts to Spanish in the US in a range of contexts, including everyday speech, contemporary culture, media, education and policy. The book is a substantially revised and expanded 2nd edition of *Spanish Speakers in the USA*, including new chapters on the history of Spanish in the US, the demographics of Spanish in the US, and language policy; and expanded chapters on language ideologies, race, identity, media, and education. A Spanish-language edition of this book is also available: <https://www.multilingual-matters.com/page/detail/?K=9781800413931>.

Translating Spanglish in US Latinx Audiovisual Stories Remy Attig, Roshawnda A. Derrick, 2025-06-27 This collection showcases interdisciplinary perspectives on how Spanglish is translated across different forms of audiovisual media for different audiences in the US Latinx content. The volume explores the ways in which Spanglish is used in American media to portray the hallmark linguistic characteristics of the communities in which they are set, but also the different scholarly approaches employed to analyze them in existing research. The first section looks at the interplay of code-switching, translanguaging, and linguistic identity in television shows and films but also podcasts, music, and other emergent forms of media. The second part examines US Latinx stories through the lens of translation studies, with chapters showcasing different lines of inquiry within contemporary translation scholarship, including accessibility via captioning and interlingual translation through subtitling and dubbing. Taken together, the volume offers a holistic view on how Spanglish is translated in US Latinx stories towards paving the way for future research in this context but also on multilingual and translingual audiovisual stories more broadly. This book will be of interest to scholars in sociolinguistics, translation studies, language and media, media studies, and Latinx studies.

Language in Immigrant America Dominika Baran, 2017-10-12 Exploring the complex relationship between language and immigration in the United States, this timely book challenges mainstream, historically established assumptions about American citizenship and identity. Set within both a historical and a current political context, this book covers hotly debated topics such as language and ethnicity, the relationship between non-native English and American identity, perceptions and stereotypes related to foreign accents, code-switching, hybrid language forms such as Spanglish, language and the family, and the future of language in America. Work from the fields of linguistics, education policy, history, sociology, and politics are brought together to provide an accessible overview of the key issues. Through specific examples and case studies, immigrant America is presented as a diverse, multilingual, and multidimensional space in which identities are often

hybridized and always multifaceted.

Reinventing the Latino Television Viewer Christopher Chávez, 2015-10-30 *Reinventing the Latino Television Viewer: Language, Ideology, and Practice* examines how the relationship between language, power, and industry practice is reshaping the very concept of Hispanic television. Chávez argues that as established mainstream networks enter the Hispanic television space, they are redefining the Latino audience in ways that more closely resemble the mainstream population, leading to auspicious forms of erasure that challenge the legitimacy of Spanish altogether. This book presents the integration of English into the Hispanic television space not as an entirely new phenomenon, but rather as an extension of two ongoing practices within the television industry—the exploitation of consumer markets and the suppression of Latino forms of speech.
