The Art of Raising a Puppy Monks of New Skete, 2001-05-15 The Monks of New Skete THE ART OF RAISING A PUPPY
The authors of the classic guide *How to Be Your Dog's Best Friend* now tell you everything you need to know about the crucial first months of your puppy's life. From the decision to adopt a pup through the practical steps of choosing the right breed, preparing your home, caring for your new charge, and practicing basic obedience exercises, the Monks of New Skete offer clear, compassionate guidelines for raising a puppy. Renowned for breeding German shepherds, the Monks train their own beautiful dogs, and dogs of any breed, according to a unique program based on understanding canine behavior and enhancing the bond between dog and owner. This communion begins in puppyhood and is based on deep respect and affection. Improper care, poor training, or a lack of attention during the early months can lead to problem behaviors that become increasingly difficult to alter as your dog matures. By learning to gently assert your dominance from the start, you'll build a lasting and loving relationship with your pup. This complete guide, illustrated with more than eighty black-and-white photographs, explains the stages of puppy development, how to communicate with your pup, how to begin a complete training program, and how to deal with common problems like chewing, jumping up, and paper-training. The kind of fulfillment a solid relationship with your pup can bring is demonstrated in the stories of three dogs who have assumed special places in their owners' lives. *The Art of Raising a Puppy* is an essential source of wisdom, information, and inspiration for anyone who loves and cares for a puppy. As a community, the Monks of New Skete have been breeding, raising, and training dogs for more than twenty years. New Skete Monastery is located in Cambridge, New York.

This new edition of *The Art of Raising a Puppy* features new photographs throughout, along with updated chapters on play, crating, adopting dogs from shelters and rescue organizations, raising dogs in an urban environment, and the latest developments in canine health and canine behavioral theory.

With that being said, a dog can be house train between 1-6weeks. A great deal is determined by your puppy's size and breed and for the most part the effort you put into

housetraining him. There is also the reality that your puppy won't have sufficient bladder and bowel controls before he's 16 weeks of age. Quite simply, he is unable to hold it for extensive periods so you have to be extra vigilant in that period. But that doesn't indicate you can't start housetraining her as soon as he puts paws inside your home. It simply means that you need to EXPECT YOUR PUP to have a handful of accidents. But don't fret, this book features everything you'll need to deal with this little mishaps, from the best way to react to tips on how to clean up.

Media, 2022-03-23T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 On the fifty-ninth day of Anka's pregnancy, the sun shines down on the normally dark woods surrounding the monastery. The wind blows through the trees, gently ushering Anka along the trail. She is as restless as the woods are. #2 Anka, the wolfhound, was always friendly and playful on ordinary walks. But on the walk to the pond, she was extremely quiet and seemed lost in herself. She lacked any of the playfulness she normally had. #3 The final stages of gestation and birth are evoked by Anka's digging. She is preparing a natural den, a sort of cave, which she will use to give birth to her pups. She is just responding to a deep instinctual knowing. #4 Returning from the walk, Anka drinks more water and then climbs into the whelping nest and relaxes atop several layers of newspaper. She has never been known to spurn a meal, even early in pregnancy when this would have been expected.
