The Walls of Constantinople Bernard Granville Baker,1910

The Walls of Constantinople AD 324-1453 Stephen Turnbull,2012-08-20 The walls of Constantinople are the greatest surviving example of European medieval military architecture in the world. They withstood numerous sieges until being finally overcome by the artillery of Mehmet the Conqueror in 1453, and exist today as a time capsule of Byzantine and Medieval history. This book examines the main defensive system protecting the landward side of the city, which consisted of three parallel walls about 5 miles long. The walls defended the city against intruders, including Attila the Hun, before finally being breached by European knights during the Fourth Crusade in 1204 and, ultimately, destroyed by Turkish artillery in 1453.

The Walls of Constantinople (Classic Reprint) B. . Granville Baker,2015-07-06 Excerpt from The Walls of Constantinople Romance and the history of walled cities are inseparable. Who has not felt this to be so at the sight of hoary ruins lichen-clad and ivy-mantled, that proudly rear their battered crests despite the ravages of time and man's destructive instincts. It is within walled cities that the life of civilized man began: the walls guarded him against barbarian foes, behind their shelter he

found the security necessary to his cultural development, in their defence he showed his finest qualities. And such a city - and such a history is that of Ancient Byzantium, the City of Constantine, the Castle of Caesar. What wonder then that man should endeavour to express by pen and pencil his sense of the greatness and beauty, the Romance of a Walled City such as Constantinople. The more so that a movement is on foot to remove these ancient landmarks of the history of Europe and Asia.
