The Ways of Federalism in Western Countries and the Horizons of Territorial Autonomy in Spain Alberto López - Basaguren, Leire Escajedo San Epifanio, 2013-05-09 Territorial autonomy in Spain has reached a crossroads. After over thirty years of development, the consensus regarding its appropriateness has started to crumble. The transformation project embodied by the reform of Statute of Catalonia (2006) has failed to achieve its most significant demands. Although the concept of Spain as a Federation is disputed -more within the country than beyond-, the evolution of the Spanish system needs to follow a markedly federalist path. In this perspective, reference models assume critical importance. This edition gathers the works of a broad group of European, American and Spanish experts who analyse the present-day challenges of their respective systems. The objective, thus, is to contribute ideas which might help to address the evolution of the Spanish system in the light of the experience of more established Federations. This first volume analyses the challenges facing federal systems in the age of globalisation from a global perspective. It also addresses current questions and the challenges faced today by, in the sphere of the internal division of powers, the most significant 'western' federal systems, on the one hand, and the Spanish system of territorial autonomy, on the other.

Governing Europe under a Constitution Herm.-Josef Blanke, Stelio Mangiameli, 2006-02-28 At the summit in Laeken in December 2001 the European Council opened the debate on the reform of the supranational structures through its Declaration on the Future of the European Union and proposed a wide-ranging agenda. The European Convention, with the mandate of the European Council, has been forming proposals for a more democratic, transparent and efficient European Union and presented a draft of a Treaty establishing a Constitution for Europe on 20th of June 2003. On these fundamentals the Intergovernmental Conference finally came to a compromise in summer 2004 after wrestling especially with the problem of qualified majority voting within the Council. On 29th of October 2004 the Heads of State and Governments of the 25 Member States signed the Treaty. After the French and Dutch citizens refused their approval of the Treaty in referendums the future of the draft Constitution remains uncertain. The volume contains articles from high-ranking experts from politics and academia of different Member States about the basic principles of the actual constitutional law of the European Union and its need of reform through a Constitution for Europe. By analysing the rules to govern a Europe of 25 and in time 28 and more Member States the publication intends to make a contribution to the emerging Ius Publicum Europaeum.

EMU Integration and Member States' Constitutions Stefan Griller, Elisabeth Lentsch, 2021-02-25 In this book, legal scholars from the EU Member States (with the addition of the UK) analyse the development of the EU Member States' attitudes to economic, fiscal, and monetary integration since the Treaty of Maastricht. The Eurozone crisis corroborated the warnings of economists that weak economic policy coordination and loose fiscal oversight would be insufficient to stabilise the monetary union. The country studies in this book investigate the legal, and in particular the constitutional, pre-conditions for deeper fiscal and monetary integration that influenced the past and might impact on the future positions in the (now) 27 EU Member States. The individual country studies address the following issues: - Main characteristics of the national constitutional system, and constitutional culture; - Constitutional foundations of Economic and Monetary Union (EMU) membership and related instruments; - Constitutional obstacles to EMU integration; - Constitutional rules and/or practice on implementing EMU-related law; and - The resulting relationship between EMU-related law and national law Offering a comprehensive and detailed assessment of the legal and constitutional developments concerning the Economic and Monetary Union since the Treaty of Maastricht, this book provides not only a study of legal EMU-related measures and reforms at the EU level, but most importantly sheds light on their perception in the EU Member States.

Climate Change Integration in the Multilevel Governance of Italy and Austria Federica Cittadino, Louisa Parks, Peter Bußjäger, Francesca Rosignoli, 2022-12-19 How can subnational governments best integrate climate change considerations across policy areas? Which factors contribute to successful integration? With a specific focus on transport, spatial planning policies, and energy and water in selected cases located at the border of the Alpine region between Italy and Austria, this volume shows that coordination (vertical and horizontal), public participation and information, leadership, and dedicated funding play fundamental and interlinked roles in climate change policy integration.

The Role of the Regions in EU Governance Carlo Panara, Alexander De Becker, 2010-11-17 This publication compares for the first time how the regions in seven different countries (Austria, Belgium, France, Germany, Italy, Spain and the UK) are involved in EU governance. It is also the first book which tackles this matter from two different perspectives; that of EU law and that of comparative law. It includes contributions both from well-established scholars in the field of EU law and from younger scholars.

Cronache di uno stato fantastico Giovanni Del Sal, 2022-02-28 È il 2025. La regione Veneto ha ottenuto l'autonomia delle regioni a statuto speciale ma non tutti sono d'accordo con la decisione del Parlamento Italiano, specialmente i rappresentanti Friulani. Quella che sembra una baruffa chiozzotta tra Veneto e Friuli degenera in una vera e propria guerra. Ma è davvero tutto qui? Cui prodest? A chi giova? La storia è narrata come un reportage giornalistico, gli avvenimenti in apparenza sembrano fantastici ma invece sono più vicini alla realtà di quanto si sia disposti ad ammettere. Giovanni Del Sal è nato il 7 dicembre 1997 e vive a Lignano Sabbiadoro. Fin da piccolo si è appassionato alla storia, interesse approfondito

durante le superiori anche grazie all'introduzione di letteratura, filosofia e sociologia. Ed è proprio quest'ultima materia che trova più interessante fra tutte, tanto da decidere di frequentare la facoltà di sociologia all'Università di Padova. Durante gli studi dei massacri perpetrati in Jugoslavia, Giovanni e un suo compagno si chiesero che cosa sarebbe successo se quella guerra fosse accaduta in un altro stato e in un altro tempo, e quali sarebbero state le eventuali conseguenze. Questo libro è la risposta alle loro domande.

Employment Policies and Multilevel Governance Roger Blanpain, Juan Pablo Landa, Brian Langille, Philippe Auvergnon, 2009-01-01 Compares multilevel manpower and social policy in five EU member states, with one chapter also on the Canadian federal model.
