Erin McGlothlin

The Banality of Evil Bernard J. Bergen, 2000-01-01 This highly original book is the first to explore the political and philosophical consequences of Hannah Arendt's concept of 'the banality of evil,' a term she used to describe Adolph Eichmann, architect of the Nazi 'final solution.' According to Bernard J. Bergen, the questions that preoccupied Arendt were the meaning and significance of the Nazi genocide to our modern times. As Bergen describes Arendt's struggle to understand 'the banality of evil,' he shows how Arendt redefined the meaning of our most treasured political concepts and principles—freedom, society, identity, truth, equality, and reason—in light of the horrific events of the Holocaust. Arendt concluded that the banality of evil results from the failure of human beings to fully experience our common human characteristics—thought, will, and judgment—and that the exercise and expression of these attributes is the only chance we have to prevent a recurrence of the kind of terrible evil perpetrated by the Nazis.

The Mind of the Holocaust Perpetrator in Fiction and Nonfiction Erin McGlothlin, 2021-05-04 Examines textual representations of the consciousness of men responsible for committing Holocaust crimes. *The Mind of the Holocaust Perpetrator in Fiction and Nonfiction* examines texts that portray the inner experience of Holocaust perpetrators and thus transform them from archetypes of evil into complex psychological and moral subjects. Employing relevant methodological tools of narrative theory, Erin McGlothlin analyzes these unsettling depictions, which manifest a certain tension regarding the ethics of representation and identification. Such works, she asserts, endeavor to make transparent the mindset of their violent subjects, yet at the same time they also invariably contrive to obfuscate in part its disquieting character. *The Mind of the Holocaust Perpetrator in Fiction and Nonfiction* contains two parts. The first focuses on portraits of real-life perpetrators in nonfictional interviews and analyses from the 1960s and 1970s. These works provide a nuanced perspective on the mentality of the people who implemented the Holocaust via the interventional role of the interviewer or interpreter in the perpetrators' performances of self-disclosure. In part two, McGlothlin investigates more recent fictional texts that imagine the perspective of their invented perpetrator-narrators. Such works draw readers directly into the perpetrator's experience and at the same time impede their access to the perpetrator's consciousness by retarding their affective connection. Demonstrating that recent fiction featuring perpetrators as narrators employs strategies derived from earlier nonfictional portrayals, McGlothlin establishes not only a historical connection between these two groups of texts, whereby nonfictional

engagement with real-life perpetrators gradually gives way to fictional exploration, but also a structural and aesthetic one. The book bespeaks new modes of engagement with ethically fraught questions raised by our increasing willingness to consider the events of the Holocaust from the perspective of the perpetrator. Students, scholars, and readers of Holocaust studies and literary criticism will appreciate this closer look at a historically taboo topic.

Homer, Humanism, Holocaust Adam J. Goldwyn, 2022-10-31 This book examines how Jewish intellectuals during and after the Second World War reinterpreted Homer's epics, the Iliad and the Odyssey, in light of their own wartime experiences, drawing a parallel between the ancient Greek genocide of the Trojans and the Nazi genocide of the Jews. The wartime writings of Theodore Adorno, Hannah Arendt, Erich Auerbach, Rachel Besspaloff, Hermann Broch, Max Horkheimer, Primo Levi, and others were attempts both to understand the collapse of European civilization and the Enlightenment through critiques of their foundational texts and to imagine the place of the Homeric epics in a new post-War humanism. The book thus also explores the reception of these writers, analyzing how Jewish child-survivors like Geoffrey Hartman and Hélène Cixous and writers of the post-Holocaust generation like Daniel Mendelsohn continued to read the epics as narratives of grief, trauma, and woundedness into the twenty-first century. .

Hannah Arendt on the Holocaust Jules Steinberg, 2000 The unique contribution of this study consists in the discovery and presentation of concrete textual evidence of a major shift in Arendt's political thinking between 1951 and 1958, textual material that has been ignored by all Arendt scholars, because it presents Arendt endorsing a radically inegalitarian and anti-democratic doctrine called the rule of masters, which Arendt discovered in ancient political theory. On the basis of this evidence, the book explains why Arendt's *The Human Condition* rehabilitates the pattern of antiliberal and antidemocratic thinking that formed one of the major ideological premises of fascist political thinking. It demonstrates comprehensively that Arendtian antiliberalism shares a great deal in common with the right-wing German tradition of antisemitic antiliberalism that arose in the immediate aftermath of 1789 and 1806, where modern liberalism was ridiculed and rejected as Jewish slave morals. The study contends that the key to deciphering Arendt's Holocaust scholarship lies in the recognition that scholars are wrong to portray Arendt's thinking as highly original, and that the most conspicuous feature of Arendt's thinking is its systematic lack of originality. This leads to the central claim that we can understand the Nazi hatred of the Jews and the ensuing mass murder by reading Arendt's accounts of these matters in order to figure out how and why she got these matters

wrong, even though we find evidence of the truth in her own writings, which Arendt suppresses dishonestly in order to reconcile her interpretation of Nazism with her own defense of a right-wing Nietzschean-Heideggerian pattern of antiliberalism, of the precise kind endorsed as the central premise of Nazi ideology.

Blood, Brutality, and Humor in Tarantino Movies. "Pulp Fiction" and "Inglourious Basterds" Benjamin Halking, 2022-10-27 Master's Thesis from the year 2019 in the subject Film Science, grade: 2,7, University of Cologne, language: English, abstract: This thesis gives an analysis of technical as well as contextual items that Tarantino uses time and again in order to produce violent movies and give them his very personal touch. Doing that, he makes use of two basic elements: humor and an abundant amount of violence. It would sound like humor and violence do not go well together. The author argues that Tarantino accomplishes this feat with a seeming effortlessness which could just as well be an elaborate plan to criticize the use of violence and advocate a life free of crime. In order to do that, two scenes from different stages of Tarantino's career were chosen, both personally and cinematically. The first scene that is analyzed is taken from his 1994 independent movie Pulp Fiction. The second scene analyzed is from Inglourious Basterds from 2009. The two films in focus are different in various aspects such as the scenery and setting, the cultural and historical context or sociocultural circumstances at the time of their release, to name a few. This is why they make an excellent contrast to show the differences but also the similarities in Tarantino's work to deduct a development from the comparison. The first focus of the thesis lies on the concept of violence. It gives a brief history both diachronically as well as synchronically. After that, the concept of humor is addressed, and with that why something is perceived as being funny (or maybe not). The idea of alienation between what the viewer or listener expects and what they are actually provided with plays an important role here. A conclusion to this thesis deals with why Tarantino chooses the depiction of (graphic) violence that he is known and famous for. Tarantino changes his modus operandi over the years when it comes to the representation of brutality in his movies. But he stays true to himself in the very core of the kind of violence he implicates in his films, using the techniques and stylistic devices he is known and loved for. Quentin Tarantino is often synonymous with making ultraviolent movies. Just as often, he is celebrated for his distinctive way of making movies which made him one of the most famous filmmakers in Hollywood. The fact that he has been in the business for almost 30 years proves that he does many things right even when critique of his representation of brutality arises with almost each of his films.

On Feminist Ethics and Politics Claudia Card, 1999 For years, mainstream feminist ethics focused criticism on male supremacy. Feminist philosophers in this volume adopt a less male-focused stance to look closely at oppression's impact on women's agency and on women's relations with women. Examining legal, social, and physical relationships, these philosophers confront moral ambiguity, moral compromise, and complicity in perpetuating oppression. Combining personal experience with philosophical inquiry, they vividly portray their daily engagement with oppression as both victims and perpetrators. They explore such issues as how pornography silences women and radical feminist politics' complicity in racism. Among these insightful essays, Sandra Bartky argues that women share guilt for racism when they benefit from it without protest; Susan Brison reflects on uses of narrative in trauma recovery from such experiences as being targeted for

rape or murder; Joan Callahan examines fallout of derogatory speech directed at lesbians; Virginia Held proposes carrying care into marketplaces and governments; and, in her introduction, Claudia Card draws on Primo Levi's conception of gray zones in exploring dangers of character damage to victims of misogyny. A fitting companion to Card's highly regarded *Feminist Ethics*, this volume interweaves observations on character, political ethics, violence, and love into an accessible sourcebook for students. It tackles some of feminism's most pressing issues and helps readers to identify and then overcome the real damage caused by oppression.
