

Cape Lion Vs African Lion

Samuel MAUNDER

Lion Deirdre Jackson, 2010-05-15 Although the lion is not the largest, fastest or most lethal animal, its position as king of beasts has rarely been challenged. Since Palaeolithic times, lions have fascinated people, and due to its gallant mane, knowing eyes, and distinctive roar, the animal continues to beguile us today. In *Lion*, Deirdre Jackson paints a fresh portrait of this regal beast, drawing on folktales, the latest scientific research, and even lion-tamers' memoirs, as well as other little-known sources to tell the story of lions famous and anonymous, familiar and surprising. Majestic, noble, brave—the lion is an animal that has occupied a great place in the human imagination, inspiring countless myths, lore and legends. As well, this creative relationship has abounded in visual culture—painted on wood and canvas, chiseled in stone, hammered in metal, and tucked between the pages of medieval manuscripts, lions have often represented divinity, dignity, and danger. In *Lion* Jackson summarizes the latest findings of field biologists and offers in-depth analyses of works of art, literature, oral traditions, plays, and films. She is a peerless guide on a memorable visual and cultural safari.

The Lions of Tsavo Bruce D. Patterson, 2004-02-12 Through field research and forensic evidence, a scientist reveals his theory on why two Kenyan lions killed humans and then ate their prey.

In Search of the African Lion Roger de la Harpe, Pat de la Harpe, 2012-08-01 The African lion (*Panthera leo*), long celebrated as the king of beasts, faces unprecedented challenges in the wild today. Loss of habitat through the expansion of human activity increasingly restricts the lion to game reserves and national parks, while diseases such as bovine tuberculosis pose a threat to the health of lion prides. Over a period of two years, Roger and Pat de la Harpe have documented wild lions of South Africa, and the result is a superbly photographed and engagingly written tribute to this often misunderstood predator. In *In Search of the African Lion* enters the complex world of the lion, describing pride dynamics, hunting patterns, the reproductive cycle and interactions with human communities. The book focuses on four main areas: the Kalahari, the Madikwe/Mapungubwe area, the Greater Kruger National Park and Northern Zululand -each with its own problems, challenges and opportunities. In addition, the authors highlight the important work done by game rangers, wildlife managers and scientific researchers in understanding the lion and in protecting existing populations. The *In Search of...* series focuses on the plight of threatened and endangered species. Also available by the same authors: *In Search of the African Wild Dog*.
