Queer Encounters with International Law Tamsin Phillipa Paige, Claerwen O'Hara, 2024-10-07 This book focuses on queer people and their encounters with international law. Traversing a wide range of topics, from trans discrimination and conversion therapy to sadomasochism and abolitionism, this book asks questions about the (im)possibility of freedom and equality for queer communities in the world and the role that different areas of international law have to play in such a pursuit. It considers how queer lives and bodies are rendered legible or illegible to the law through how we define concepts such as 'gender [identity]' or 'private life'. It also reflects on whether legal activism focused on LGBTIQ+ rights can ever reflect the insights of queer theory. The book engages with new issues in international law, such as recent contestation over the meaning of 'gender' in international human rights law and international criminal law. It also showcases the diversity of approaches to queering international law that are emerging. While some chapters offer a critique of international law's violent and exclusionary tendencies, others re-invest in international law as a tool in the struggle for queer liberation by seeking to re-imagine it in queer directions. The questions addressed in this book are wide-ranging and approached differently by the authors. However, all centre on the complex relationship between international law, queer theory, and queer lives and what the future holds for these encounters going forward. This collection of queer encounters with international law will be invaluable to scholars of international law, human rights, and international relations with an interest in critical approaches to these areas, as well as to researchers, activists, and practitioners working in cultural, gender, and sexuality studies.

Queer Engagements with International Law Claerwen O'Hara, Tamsin Phillipa Paige, 2024-10-21 This book explores times, spaces and imaginings relating to international law through the lens of queer theory. For some time now, queer theorists and legal scholars who think with queer theory have asked, what happens when queer theory moves out of its home base of gender and sexuality? The chapters in this book begin to answer this question by applying insights from queer theory to a diverse array of international law topics, from travaux préparatoires and international judging to the environment, oceans and outer space. While some contributions maintain a focus on gender and sexual diversity, all are characterised by a shift away from questions about LGBTIQ+ people towards wider discussions about power, normality, difference and liberation in international law. Through these engagements, the book demonstrates how queer theory can provide insights into a range of

international law issues by allowing us to 'make strange' the taken-for-granted and contributing to a broader practice of reading for difference rather than dominance. The book engages with contemporary challenges in international law, from the climate crisis to new military technologies, such as automated naval vessels. It also showcases the diversity of approaches to queering international law that are emerging, with some authors drawing attention to the violence of (neo-)colonial international law and others engaging in more utopian and reparative thinking. This collection of queer theoretical engagements with international law will be invaluable to scholars of international law and international relations with an interest in critical approaches to these areas; as well as to researchers, activists and practitioners working in cultural, gender, queer and/or postcolonial studies.

Financial Crime, Law and Governance Doron Goldbarsht, Louis de Koker, 2024-09-10 Embark on a journey through the dynamic landscape of global financial crime combating with our latest collection, meticulously curated by leading researchers. At the intersection of finance, technology, law, governance, and international cooperation, this multidisciplinary exploration offers profound insights into the nuanced world of financial crime across diverse jurisdictions, including Australia, Germany, New Zealand, Nigeria and the United Kingdom. Discover a wealth of knowledge as contributors investigate facets such as asset forfeiture, non-conviction-based asset recovery, money laundering in the real estate sector, and the challenges and opportunities posed by new technologies and fintechs. Unravel the crypto crime and terror nexus and explore the necessity of public-private collaboration to combat the abuse of Non-Fungible Tokens. Dive into policy approaches, including the WireCard scandal, and understand how good governance, both public and corporate, remains paramount in the fight against financial crime. As we navigate an age of intergovernmental rulemaking, the collection emphasizes the crucial role of robust governance frameworks and examines the impact of permissive regulation on practices in the City of London. Delve into discussions on crime risk, risk management, de-risking, and the potential consequences of overcompliance and conservative risk approaches on financial exclusion levels. While global standards on financial crime have solidified over the past three decades, the future direction of standard-setting and compliance enforcement remains uncertain in our complex global political landscape. The collection concludes by pondering these current challenges, offering a thought-provoking exploration of what lies ahead. This collection a product of the Financial Integrity Hub (FIH), serves as a valuable resource for financial regulators, compliance officers, and scholars, offering profound insights and perspectives to navigate the dynamic landscape of financial crime combatting. Chapters Non-Conviction-Based Asset Recovery in Nigeria - An Additional Tool for Law Enforcement Agencies?, 'De-risking' Denials of Bank Services: An Over-Compliance Dilemma? and Terror on the Blockchain: The Emergent Crypto-Crime-Terror Nexus are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

The Times and Temporalities of International Human Rights Law Kathryn McNeilly, Ben Warwick, 2022-02-24 This

collection brings together a range of international contributors to stimulate discussions on time and international human rights law, a topic that has been given little attention to date. The book explores how time and its diverse forms can be understood to operate on, and in, this area of law; how time manifests in the theory and practice of human rights law internationally; and how specific areas of human rights can be understood via temporal analyses. A range of temporal ideas and their connection to this area of law are investigated. These include collective memory, ideas of past, present and future, emergency time, the times of environmental change, linearity and non-linearity, multiplicitous time, and the connections between time and space or materiality. Rather than a purely abstract or theoretical endeavour, this dedicated attention to the times and temporalities of international human rights law will assist in better understanding this law, its development, and its operation in the present. What emerges from the collection is a future – or, more precisely, futures – for time as a vehicle of analysis for those working within human rights law internationally.

Modern Statutory Interpretation Jeffrey Barnes, Jacinta Dharmananda, Eamonn Moran, 2023-05-04 Statutory interpretation is both a distinct body of law governing the determination of the meaning of legislation and a task that requires a set of skills. It is thus an essential area of legal practice, education and research. *Modern Statutory Interpretation: Framework, Principles and Practice* is an original, clear, coherent and research-based account of contemporary Australian statutory interpretation. Written by experts in the field, the book provides a comprehensive coverage of statutory interpretation law as well as examining related areas such as legislative drafting, the parliamentary process, the modern history of interpretation, sources of doubt, and interpretation techniques. The content is structured in eight parts. Parts I-III introduce foundational matters, Parts IV-VII deal with the general principles of interpretation, and Part VIII examines special interpretative issues. *Modern Statutory Interpretation* is an essential resource for legal professionals, legal researchers, and students undertaking advanced courses in statutory interpretation in Australia.

International Law and the Cold War Matthew Craven, Sundhya Pahuja, Gerry Simpson, Anna Saunders, 2020 This is the first book to examine in detail the relationship between the Cold War and International Law.

Australian Feminist Judgments Heather Douglas, Francesca Bartlett, Trish Luker, Rosemary Hunter, 2014-11-20 This book brings together feminist academics and lawyers to present an impressive collection of alternative judgments in a series of Australian legal cases. By re-imagining original legal decisions through a feminist lens, the collection explores the possibilities, limits and implications of feminist approaches to legal decision-making. Each case is accompanied by a brief commentary that places it in legal and historical context and explains what the feminist rewriting does differently to the original case. The cases not only cover topics of long-standing interest to feminist scholars – such as family law, sexual offences and discrimination law – but also areas which have had less attention, including Indigenous sovereignty,

constitutional law, immigration, taxation and environmental law. The collection contributes a distinctly Australian perspective to the growing international literature investigating the role of feminist legal theory in judicial decision-making.
