**Brian D. Laslie**

*Figuring Transcendence in Les Miserables* Kathryn M. Grossman, 1994 The intricate interweaving of characters, plot, subplots, themes, imagery, topography, and digressions in Hugo's prose masterpiece results in a completely integrated metaphorical system. Superficial chaos, Grossman argues, is deeply ordered by repeating patterns that produce a kind of literary fractal, a multilayered verbal network.

*Fighting from Above* Brian D. Laslie, 2024-03-19 The story of the United States Air Force (USAF) stretches back to aerial operations prior to the First World War—well before the USAF became a separate service—and looks forward to a new era of airpower in space. *Fighting from Above* presents a concise account of this expansive history, offering a new perspective on how the air forces of the United States created an independent way of warfare over time. From the earliest battles of the USAF's predecessor organizations to its modern incarnation, Brian D. Laslie identifies four distinct and observable ways of war that developed over four distinct epochs. Beginning with the development of early air power (1906–1941), he highlights the creation of roles and missions, with bombardment theory and practice ascendant. An era of strategic dominance (1942–1975) followed in which the ideas of strategic bombardment ruled the air force; when such notions were unceremoniously proven false during the Vietnam-era conflicts, a period of tactical ascendancy (1975–2019) began. Finally, Laslie considers the current environment, where much of the story of the USAF remains unwritten as it grapples with the prospects and challenges posed by drones and the U.S. Space Force. While detailing combat operations, *Fighting from Above* also pays close attention to technology, politics, rivalries, logistics, policy, organization, equipping, and training. Thorough, concise, and innovative in its approach, it is an authoritative, exceptionally readable history of the development of American airpower.

**International Film Festivals** Tricia Jenkins, 2018-09-20 More than 5,000 film festivals take place globally and many of these have only been established in the last two decades. *International Film Festivals* collects the leading scholarship on this increasingly prominent phenomenon from both historical and contemporary perspectives, using diverse methods including archival research, interviews and surveys and drawing widely from fields like sociology, urban studies and film criticism to patent technology and history. With contributors from across the world and covering the major festivals - Cannes, Venice, Toronto, Berlin - as well as niche, genre and online film festivals, this book is an authoritative and exemplary guide to the

evolution of these key sites for film distribution, exhibition and reception. Chapters unravel topics such as the relationship between corporations and festivals, the soft power function they can perform for their host nations and the changing identities of audiences on arrival at, and during exploration of, a given festival venue. Tricia Jenkins' edited volume reconceives the film festival for the global, digital age whilst drawing out its historic importance and ultimately makes a major intervention in film festival studies as well as film and cultural studies more widely.

**Intercultural Self-Defence** Fred Dervin, 2025-03-11 Based on the author's 25 years of experience in researching and teaching interculturality, *Intercultural Self-Defence: A Resource Book for Students, Teachers and Researchers* is a compelling exploration of the subtle forces that shape Intercultural Communication Education and Research (ICER). The Resource Book delves into the adversaries lurking within ICER - indoctrination, intellectual inertia and linguistic indifference - and unveils how they can stifle genuine understanding and growth. Each chapter acts as a critical lens, scrutinising the boundaries between education and indoctrination, the stagnation of thought and the perils of linguistic complacency. The author illustrates the impact of these forces on interculturality and the ethical implications they carry. The book contains a series of activities designed to encourage creative self-reflection and fosters a deeper understanding of the interplay between language, power and interculturality. But it is more than a resource: It is a manifesto for continuous learning, active engagement and the pursuit of a more inclusive and dynamic field of intercultural communication education and scholarship. Advocating a vigilant and self-reflexive approach, the book will serve as a critical guide for students, teachers and researchers specialising in intercultural research and education to navigate the complexities of interculturality.
