Enticing Benedict Cole Eliza Redgold,2015-11-01 An artist, a lady, a secret passion... When Benedict Cole shuns her request for painting lessons, Lady Cameo Catherine Mary St. Clair takes matters into her own hands. She arrives at Benedict's studio, only to be mistaken for a model! It's an opportunity she just can't turn down... Benedict knows better than to let intimacy interfere with his work, yet he can't quell his fascination for the mysterious Cameo. And after one daring night together, everything changes. Will Cameo still be his muse when Benedict discovers who she really is?

Changing Tunes Phil Powrie,Robynn Jeananne Stilwell,2006 The study of pre-existing film music is a well-established part of Film Studies, covering 'classical' music and popular music. Generally, these broad musical types are studied in isolation. This anthology brings them together in twelve focused case studies. The first section explores art music; it revolves around the debate on the relation between the aural and visual tracks, and whether pre-existing music has an integrative function or not. The second section is devoted to popular music in film, and shows how very similar the functions of popular music in film are to the supposedly more 'elite' classical music and opera.

Amélie Isabelle Vanderschelden,2007-01-26 Le Fabuleux destin d'Amelie Poulain was the surprise boxoffice success of 2001, with nine million spectators in France, and more than 30 million worldwide. The film turned Audrey Tautou into an international star, in her iconic role as Amelie, a naive French Parisian who devotes herself to mending the lives of the people around her. Shot on location in Paris, the film combines poetic and magical realism with stylish cinematography, original use of colour, state-of-the-art special effects, and an evocative soundtrack; together these have produced a popular film of universal appeal. Isabelle Vanderschelden examines the film's production within the French film industry. She analyzes the issues of genre and narrative that it presents so well. She looks in depth at the film's key scenes, as well as at Jeunet's distinctive visual style and cinematography and his use of digital technology. The national and international receptions of Amelie are explored to establish why the film has caught the public imagination and whether it marks a renewal in the cultural diversity and distinctive identity of the French film industry. This book will be essential reading for cinema lovers and students alike.
