Tim Rayborn, Abigail Keyes

The Death of Expertise Thomas M. Nichols, 2017 A cult of anti-expertise sentiment has coincided with anti-intellectualism, resulting in massively viral yet poorly informed debates ranging from the anti-vaccination movement to attacks on GMOs. As Tom Nichols shows in *The Death of Expertise*, there are a number of reasons why this has occurred—ranging from easy access to Internet search engines to a customer satisfaction model within higher education.

Jessica Jones, Scarred Superhero Tim Rayborn, Abigail Keyes, 2018-07-10 Jessica Jones barged onto our screens in November 2015, courtesy of Marvel and Netflix, presenting a hard-drinking protagonist who wrestles with her own inner (and outer) demons. Gaining enhanced abilities as a teenager, she eschews the super costume and is far more concerned with the problems of daily life. But when Jessica falls under the control of a villain, her life changes forever. Based on the comic book *Alias*, the show won a large following and critical acclaim for its unflinching look at subjects like abuse, trauma, PTSD, rape culture, alcoholism, drug addiction, victims' plight and family conflicts. This collection of new essays offers insight into the show's complex themes and story lines.

The Routledge Handbook of Parliamentary Administrations Thomas Christiansen, Elena Griglio, Nicola Lupo, 2023-05-31 The Routledge Handbook of Parliamentary Administrations brings together an international, multidisciplinary group of contributors providing a systematic and comprehensive analysis of parliamentary administrations. Including chapters on the administrations of national parliaments in every member state of the European Union, in most of the EU candidate countries and in key liberal democracies around the world, this book represents a uniquely broad-ranging resource. Each national system is treated in a consistent manner, with authors providing relevant facts, figures and critical analysis according to a common framework. Additionally, it provides coverage of transnational parliamentary administrations in different regions around the globe and includes a number of cross-cutting chapters, addressing key issues of relevance for a better understanding of parliamentary administrations such as the potential for politicisation, professionalisation, digitalisation or Europeanisation with the comparative analysis of different national experiences. This handbook will enable readers to better comprehend the role and influence of parliamentary administrations and in doing so will enhance our

understanding of their importance for the effective functioning of representative democracy more generally. The Routledge Handbook of Parliamentary Administrations constitutes a unique tool and prime reference for any researcher, scholar or practitioner working in the area of parliamentary and legislative studies, governance, democracy, public policy and administration, as well as more widely to European studies, general political science and comparative politics. Chapters 1, 2 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Gendered Approaches to Spatial Development in Europe Barbara Zibell, Doris Damyanovic, Ulrike Sturm, 2019-03-27 This book explores the extent to which gendered approaches are evident and effective in spatial development in selected European countries. Beginning with an introduction to theories and concepts of gender, space and development, the book includes a brief historical review of gender in spatial planning and development throughout Europe in general, and an overview of different national frameworks in European countries, comparing legal, organisational and cultural similarities and differences. This is followed by a critical reflection on how simplifications and stereotypes of gender concepts are used in the practice of spatial development. The main part of the book offers a transnational discussion of planning practices on

selected thematic topics. It starts with gender-sensitivity in urban master planning and at neighbourhood level referring to different types of planning manuals. Furthermore, the book focuses on gender-sensitive evaluation in urban planning as well as international agendas for sustainable development as a framework for a new generation of gender equality policies. The chapter authors assert that climate change, migration and austerity have threatened gender equality and therefore spatial development needs to be especially alert to gender dimensions. The editors end with an outlook and suggestions for further action and research on gender issues in spatial development. With inputs from some of Europe's leading thinkers on gender, space and development, this volume is designed to inspire students, scholars and practitioners to reflect upon the contribution that gendered approaches can make in the various fields of spatial development and environmental planning.
