The Time Traveler's Wife Audrey Niffenegger, 2003-04-30 A most untraditional love story, this is the celebrated tale of Henry DeTamble, a dashing, adventuresome librarian who inadvertently travels through time, and Clare Abshire, an artist whose life takes a natural sequential course. Henry and Clare's passionate affair endures across a sea of time and captures them in an impossibly romantic trap that tests the strength of fate and basks in the bonds of love. "Niffenegger's inventive and poignant writing is well worth a trip" (Entertainment Weekly).

The Time Traveler's Wife Audrey Niffenegger, 2003 The Time Traveler's Wife is the story of Clare, a beautiful art student, and Henry, an adventuresome librarian, who have known each other since Clare was six and Henry was thirty-six, and were married when Clare was twenty-three and Henry was thirty-one. Impossible but true, because Henry is one of the first people diagnosed with Chrono-Displacement Disorder: periodically his genetic clock resets and he finds himself misplaced in time, pulled to moments of emotional gravity from his life, past and future. His disappearances are spontaneous, his experiences unpredictable, alternately harrowing and amusing. The Time Traveler's Wife depicts the effects of time travel on Henry and Clare's marriage and their passionate love for each other, as the story unfolds from both points of view. Clare and Henry attempt to live normal lives, pursuing familiar goals - steady jobs, good friends, children of their own. All of this is threatened by something they can neither prevent nor control, making their story intensely moving and entirely unforgettable.--BOOK JACKET.

Bookclub-in-A-Box Discusses the Time Traveler's Wife Marilyn Herbert, Audrey Niffenegger, 2006-02-21 Audrey Niffenegger's romantic novel The Time Traveler's Wife tells the tender story of Henry and Clare, a married couple, whose relationship is as unique as is every love affair. Niffenegger takes the concept of time out of the linear sequence that we are familiar with, and turns it inside out and upside down. Bookclub-in-a-Box explores both inside and outside the boundaries of Niffenegger's concepts of love, relationships and time. The exploration looks at how the author's narrative structure and her

symbols highlight the circular nature of time and interconnected lives. The discussion guide will also look at why this novel is often categorized as science fiction. Every Bookclub-in-a-Box discussion guide includes complete coverage of the themes and symbols, writing style and interesting background information on the novel and the author.

Army Spouses Morten G. Ender, 2023-10-19 Distilled from nearly two hundred interviews, conducted from the 2003 invasion of Iraq on, *Army Spouses* marshals an incredible breadth of individual experiences, range of voices, insider access, and theoretical expertise to tell the story of US Army husbands and wives and their families during wartime in this century. Morten Ender offers the first contemporary study of the emotional cycle of deployment and its impact on military families in the post-9/11 world. Military spouses, as he shows, operate both near and far from the front lines, serving on the home front to support combat service in the so-called Global War on Terror that has intimately bound together soldiers, families, the military institution, the state, and society. He paints a vivid picture of army spouses' range of responses to deployment separations that illuminates the deep sacrifices that soldiers, veterans, and their families have made over the past twenty years.

THE TIME TRAVELER'S WIFE Bruce Joel Rubin, 2009

Diseases and Disorders in Contemporary Fiction James Peacock, Tim Lustig, 2013-04-17 The essays in this collection address the current preoccupation with neurological conditions and disorders in contemporary literature by British and American writers. The book places these fictional treatments within a broader cultural and historical context, exploring such topics as the two cultures debate, the neurological turn, postmodernism and the post-postmodern, and responses to

September 11th. Considering a variety of materials including mainstream literary fiction, the graphic novel, popular fiction, autobiographical writing, film, and television, contributors consider the contemporary dimensions of the interface between the sciences and humanities, developing the debate about the post-postmodern as a new humanism or a return to realism and investigating questions of form and genre, and of literary continuities and discontinuities. Further, the essays discuss contemporary writers' attempts to engage the relation between the individual and the social, looking at the relation between the syndrome syndrome (referring to the prevalence in contemporary literature of neurological phenomena evident at the biological level) and existing work in the field of trauma studies (where explanations tend to have taken a psychoanalytical form), allowing for perspectives that question some of the assumptions that have marked both these fields. The current literary preoccupation with neurological conditions presents us with a new and distinctive form of trauma literature, one concerned less with psychoanalysis than with the physical and evolutionary status of human beings.

Philosophy through Film Amy Karofsky, 2025-03-31 This fifth edition of Philosophy through Film uses recently released, well-received movies to explore answers to classic questions in philosophy in an approachable yet philosophically rigorous manner. Author Amy Karofsky uses two films in each chapter to examine one long-standing philosophical question and assess

some of the best solutions to it that have been offered. The chosen movies are not mere “add-ons” to an otherwise straightforward introductory text; instead, they are fully integrated into the discussion of the issues and the various positions. Each chapter also includes discussion questions, an annotated list of films related to the chapter topic, and two or three historically significant primary sources (which are collected together at the end of the book). Changes to the fifth edition include: The replacement of older movies with four new focus films: *Anatomy of a Fall*, *Everything Everywhere All at Once*, *Get Out*, and *The Time Traveler's Wife*. The addition of new primary readings from Roderick Chisholm, Jerry Fodor, Baron d'Holbach, and Susan Wolf. Important new sections added to Chapter 1 on Truth (“The Identity Theory of Truth”) and Chapter 5 on Artificial Intelligence (“The I in AI”). A major overhaul of Chapter 6 on free will, determinism, and moral responsibility. Updated notes throughout. The films examined in depth are: *Ad Astra*; *Anatomy of a Fall*; *Arrival*; *Beautiful Boy*; *Crimes and Misdemeanors*; *Divergent*; *Equilibrium*, *Everything Everywhere All at Once*; *Ex Machina*; *Get Out*; *Gone Baby Gone*; *Her*; *Inception*; *Edge of Tomorrow*; *The Matrix*; *Memento*; *A Serious Man*; *Silence*; *The Time Traveler's Wife*.
