*Proceedings of the 1st International Conference on Creativity, Technology, and Sustainability* Djihed Berkouk,Uday Chatterjee,Tallal Abdel Karim Bouzir,Imed Ben Dhaou,2025-03-27 This open-access book presents peer-reviewed articles from the 1st International Conference on Creativity, Technology, and Sustainability (CCTS), held on May 15-16, 2024, at Dar Al-Hekma University in Jeddah, Saudi Arabia. It explores the dynamic interplay between technology and sustainability, emphasizing the need for advancements to align with Saudi Arabia's Vision 2030 and the United Nations Sustainable Development Goals (SDGs). The book includes case studies, literature reviews, and scientific works, organized into five main parts: Technology for Innovation and Safety, Sustainable Solutions for Technology and Infrastructure, Transforming Education and Social Impact, Sustainable Environment and Smart Cities, and Technologies for Health, Environment, and Sustainability. Readers will discover how technology fosters innovation, safety, and sustainability across various fields,

aligning with specific UN SDGs. Practical applications highlight sustainability awareness and responsible behavior, facilitating knowledge transfer for the public sector, innovative companies, academia, and research centers. Targeting researchers, policymakers, sustainability advocates, and decision-makers committed to achieving the UN's SDGs and Saudi Vision 2030, this book identifies key areas for attention in architecture, design, social and environmental sciences, law, and business. It serves as a valuable guide for professionals in technology-driven sectors like Artificial Intelligence and the Internet of Things, emphasizing technology's vital role in addressing sustainability challenges, enhancing efficiency, promoting environmentally friendly processes, and reducing costs, ultimately improving the quality of life for all.

**Man and Place** Asmaa Ibrahim, Mady A. A. Mohamed, Mohamed Fekry, 2024-05-10 This book is a result of the 1st ARCH and DESN International Conference (previously Memaryat) Conference held at Effat university on the 8th and 9th of February 2023, and includes chapters dealing with the critical manifestation of “Man and Place” to accommodate and embrace social, economic, and environmental needs within a balanced, integrated system. The book is groundbreaking in that it brings together some of the brightest minds in academia and industry. The book includes a diverse range of contributions from esteemed academics and practitioners and offers a unique platform for thought-provoking discussions and innovative strategies that will help shape the cities of tomorrow. Further chapters include topics such as sustainability and creative transformations, smart cities, environmental resilience, resilient local economies, manufacturing innovations, and smart products. This book will be of interest to decision-makers, architects, interior designers, product designers, urban planners, urban designers, entrepreneurs, educators, and agencies.

*Applications of Nanomaterials in Human Health* Firdos Alam Khan, 2020-06-20 This book reviews the various applications of nanotechnology in human health. The introductory chapters focus on the classifications, types, synthesis, and characterization of various types of nanomaterials, while subsequent chapters highlight current applications of nanomaterials in the diagnosis and treatment of microbial and viral infections, and also in stem cell biology and regenerative medicine. Further, the book explores the potential role of nanomaterials in connection with neuronal differentiation, neuronal protection, and neurological diseases. It demonstrates the use of nanotechnology to diagnose and treat genetic disorders, as well as endocrine and metabolic syndrome diseases. It also discusses the ethics and the negative impacts of nanomaterials on human health. Lastly, it examines the intellectual property aspects and government regulations associated with the research, design, and commercialization of nanotechnology-based products. Given its scope, it offers a valuable resource for all researchers and professionals working with nanotechnology-based applications in human health.

**Environmental Impact** C. A. Brebbia, Tae Soo Chon, 2012 The interdisciplinary conference addressed some of the most serious problems affecting sustainable development, issues that must be considered by development projects in order to

provide complete solutions. A major motivation for the meeting was to learn from past failures and avoid repeating similar mistakes while attempting to prevent emerging threats to the environmental and ecological systems by developing more constructive and progressive approaches to ensure sustainability--Publisher information.

Designing a Proposed Training Programme for Developing Teaching Competencies of Yemeni University English Teachers Marwan Saeed Saif Moqbel, 2023-04-04 Doctoral Thesis / Dissertation from the year 2015 in the subject Pedagogy - The Teacher, Educational Leadership, , language: English, abstract: The main objective of this study is to investigate the teaching competencies of Yemeni university English teachers in terms of identifying the degree of practicing these competencies from the perspective of the teachers themselves, their students of English departments, and the chairmen of English departments with a view to designing a proposed training programme which aims at developing the teaching competencies of Yemeni university English teachers. The study primarily adopted the descriptive design and the quantitative approach. The data were collected through a questionnaire which consisted of (73) teaching competencies distributed among five main domains: planning teaching; implementing teaching; using technology; human relations; and assessment, evaluation, and giving feedback. After making sure of its validity and reliability, it was administered to three Yemeni public universities (Sana'a University, Aden University, and Taiz University). The sample consisted of (49) Yemeni university English teachers, (590) students of level four, and (6) chairmen of English departments. The data collected were computed and analyzed using the Statistical Package of Social Sciences (SPSS) for Windows (version 17.0). The study revealed that the degree of practicing Yemeni university English teachers for the teaching competencies is low. It also revealed that there were statistically significant differences in the means of practicing the teaching competencies by Yemeni university English teachers according to the variable of sample type (university English teachers, students, and chairmen of English departments) at the (0.05) level of significance. These significant differences were found in the means of the target sample responses between teachers and students on the one hand and between students and chairmen on the other hand. However, no statistically significant differences were found in the means of responses between teachers and chairmen or according to the variable of geography. Based on the study results, which highlighted the need of Yemeni university English teachers for training in teaching, a training programme was proposed. Besides, some recommendations to be considered to improve the teaching and learning process in the English departments of Yemeni universities and suggestions for further research were given.
