Critical Discourse Analysis G. Weiss, R. Wodak, 2002-12-17 Can discourse analysis techniques adequately deal with complex social phenomena? What does 'interdisciplinarity' mean for theory building and the practise of empirical research? This volume provides an innovative and original debate on critical theory and discourse analysis, focussing on the extent to which CDA can and should draw on the theory and methodology of a range of disciplines within the social sciences.

Jacaranda Humanities Alive 10 Australian Curriculum 3e learnON and Print Robert Darlington, Luke Jackson, Matthew Richardson, Jill Price, Cathy Bedson, Simon Phelan, 2023-11-20 Every lesson in the new Jacaranda Humanities Alive series has been carefully designed to support teachers and help students evoke curiosity through inquiry-based learning while developing key skills. Because both what and how students learn matter.

Working Class History Working Class History, 2020-12-01 History is not made by kings, politicians, or a few rich individuals—it is made by all of us. From the temples of ancient Egypt to spacecraft orbiting Earth, workers and ordinary people everywhere have walked out, sat down, risen up, and fought back against exploitation, discrimination, colonization, and oppression. Working Class History presents a distinct selection of people's history through hundreds of "on this day in history" anniversaries that are as diverse and international as the working class itself. Women, young people, people of color, workers, migrants, Indigenous people, LGBT+ people, disabled people, older people, the unemployed, home workers, and every other part of the working class have organized and taken action that has shaped our world, and improvements in living and working conditions have been won only by years of violent conflict and sacrifice. These everyday acts of resistance and rebellion highlight just some of those who have struggled for a better world and provide lessons and inspiration for those of us fighting in the present. Going day by day, this book paints a picture of how and why the world came to be as it is, how some have tried to change it, and the lengths to which the rich and powerful have gone to maintain and increase their wealth and influence. This handbook of grassroots movements, curated by the popular Working Class History project, features many

hidden histories and untold stories, reinforced with inspiring images, further reading, and a foreword from legendary author and dissident Noam Chomsky.
