Confronting Academic Mobbing in Higher Education: Personal Accounts and Administrative Action Crawford, Caroline M., 2019-09-27 Academic mobbing, a bullying behavior that targets a specific faculty member, is growing in higher education. It is a dangerous phenomenon that often attacks competent researchers and scholars who are ethical, outspoken in support of others, and normally reflect professional achievement that is coveted, resented, and perceived as intimidating by lesser faculty and administrators. Therefore, it is important to understand how academic mobbing begins, expands amongst faculty and administrators, is actually supported by faculty and administrators by either proactive efforts or actively ignoring, and results in a weakening of the higher education institution due to the reputation being detrimentally, and many times irreparably, impacted. *Confronting Academic Mobbing in Higher Education: Personal Accounts and Administrative Action* is an essential research publication that provides comprehensive research on the development of academic mobbing as a prevalent form of bullying within higher education and seeks to explore solutions and provide support for professionals currently dealing with this phenomenon. Highlighting a range of topics such as ethics, faculty outcomes, and narcissism, this book is ideal for higher education faculty, deans, department chairs, provosts, chancellors, university presidents, rectors, administrators, academicians, researchers, human resources faculty, policymakers, and academic leaders.

Start with Why 15th Anniversary Edition Simon Sinek, 2025-05-13 The inspiring, life-changing bestseller updated for its 15th anniversary with a new foreword by the author In 2009, Simon Sinek ignited a movement to help people find a greater sense of purpose at work and added a new word to the lexicon of business: WHY. People and companies now regularly talk about their WHY. Sinek's videos have been seen by over a billion people around the world, including more than 65 million who've watched his TED Talk based on Start With Why. Sinek starts with a fundamental question: Why are some people and organizations more innovative, more influential and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? Start With Why shows that the leaders who've had the greatest influence in the world all think, act, and communicate the same way— and it's the opposite of what everyone else does. People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common but they inspired people, not with WHAT they did...but with WHY they did it. Sinek provides a new, easy to understand, framework that inspires people to build organizations and lead movements in a more powerful and

effective way. And it all starts with WHY. With a new foreword touching on the importance of holding onto our WHY in a distracted age, new examples, and original stories updated, this 15th anniversary edition celebrates a simple but transformative idea that has changed the way we think about leadership and legacy.

Navigate the Chaos in 2020 Michael Edmondson, Ph.D.,2019-11-08 This publication represents over ten years of note taking involving backstories, historical events, and academic research. Once the notes exceeded 200 the idea of a daily question came to mind. This is the third year for the Navigate the Chaos publication that contains 366 daily questions to consider. (2020 is a leap year) Since self-awareness forms the foundation for both personal growth and professional development, these questions served as a daily reminder to think about a critical issue related to your growth as a person and as a professional. Before you start your day, during lunch, or prior to going to bed, consider asking yourself the daily Navigate the Chaos question. See if you can find a few minutes to reflect upon a specific trait, habit, or idea. Dedicating a few minutes each day can help you increase your self-awareness as you look to grow personally and professionally.

Becoming a student of I Dare You is about learning and achieving results when you are active in the process. When you make notes in the margin and underline a sentence, you can hear yourself talking with the author, in this case me. When you are so excited about a sentence or paragraph because of how it relates to you, and you decide to write a note on the inside cover or in the margin, you can not only see and feel my ideas taking shape, but more importantly, your thoughts. You can even argue with me the author under your breath, or I hope out loud and come up with your theories, ideas, and explanations as to what is happening in your life or business concerning the ideas in this book. In all of these ways, you become a co-author of my book entitle I Dare You. I Dare You' is an experience that cannot be taught in a classroom.
