

Country Western Gospel Music

R Bogdan

Country Music Nicolae Sfetcu, 2014-05-09 In popular music, country music, also called country and western music or country-western, is an amalgam of popular musical forms developed in the Southern United States, with roots in traditional folk music, Celtic Music, Blues, Gospel music, and Old-time music that began to develop rapidly in the 1920s. The term country music began to be widely applied to the music in the 1940s and was fully embraced in the 1970s while country and western declined in use. Encompassing a wide range of musical genres, from folk songs and religious hymns to rhythm and blues, country music reflects our Nation's cultural diversity as well as the aspirations and ideals that unite us. It springs from the heart of America and speaks eloquently of our history, our faith in God, our devotion to family, and our appreciation for the value of freedom and hard work. With its simple melodies and timeless, universal themes, country music appeals to listeners of all ages and from all walks of life. (President George H. W. Bush celebrated country music by declaring October, 1990 Country Music Month)

The Encyclopedia of Country & Western Music Rick Marschall, Richard Marschall, 1990 Offers biographical sketches with pictures of over 200 major figures in Country and Western music.

American Cowboy, 2004-05 Published for devotees of the cowboy and the West, American Cowboy covers all aspects of the Western lifestyle, delivering the best in entertainment, personalities, travel, rodeo action, human interest, art, poetry, fashion, food, horsemanship, history, and every other facet of Western culture. With stunning photography and you-are-there reportage, American Cowboy immerses readers in the cowboy life and the magic that is the great American West.

Redneck Liberation David Fillingim, 2003 In this unique book, David Fillingim explores country music as a mode of theological expression. Following the lead of James Cone's classic, *The Spirituals and the Blues*, Fillingim looks to country music for themes of theological liberation by and for the redneck community. The introduction sets forth the book's methodology and relates it to recent scholarship on country music. Chapter 1 contrasts country music with Southern gospel music--the sacred music of the redneck community--as responses to the question of theodicy, which a number of thinkers recognize as the central question of marginalized groups. The next chapter *The Gospel according to Hank*, outlines the career of Hank Williams and follows that trajectory through the work of other artists whose work illustrates how the tradition negotiates Hank's legacy. The *Apocalypse according to Garth* considers the seismic shifts occurring during country music's

popularity boom in the 1980s. Another chapter is dedicated to the women of country music, whose honky-tonky feminism parallels and intertwines with mainstream country music, which was dominated by men for most of its history. Written to entertain as well as educate and advance, *Redneck Liberation* will appeal to anyone who is interested in country music, Southern religion, American popular religiosity, or liberation theology.

Old-Time Music Makers of New York State Simon J. Bronner, 1988-01-01 Ask an old-timer what life was like in rural upstate New York during the nineteenth and early twentieth centuries and you will hear about the dances and bees that brought villagers and farmers together. You will hear of favorite fiddlers who held center stage with dance tunes taken from early British and American sources. You will hear of old-time music and its significance to a people making the transition from a rural, agricultural life to an urban, industrial one. *Old-Time Music Makers of New York State* is the first book published on this rich legacy of traditional Anglo-American music and dance. It traces the development of old-time music beginning with its movement into New York State from New England in the early nineteenth century and to its combination with commercial country music in the twentieth century. Exploring the regional character of the music and its meaning to the people who enjoy it, Bronner introduces memorable figures from the major periods in the development of old-time music, and he places their stories, their lives, and their music in the context of the region's cultural and historical changes. This is much more than a regional study, however. Bronner brings to the fore issues of national scope and interest. He discusses the relationship of old-time music to the commercial country music with which it has been closely aligned, and he challenges the prevailing wisdom that the origins of country music are in the South. Musician, fan, folklorist, and historian alike will benefit from and enjoy this book. The many musical transcriptions, annotations, photographs, and appendixes provide a valuable reference to be used again and again.

Billboard ,1980-09-27 In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends.
