

Empire Of The Sun Spielberg

Bruce Hershenson, Richard Allen

New York Magazine, 1987-12-14 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Steven Spielberg's America Frederick Wasser, 2010-02 Steven Spielberg is known as the most powerful man in New Hollywood and a pioneer of the contemporary blockbuster, America's most successful export. His career began a new chapter in mass culture. At the same time, American post war liberalism was breaking down. This fascinating new book explains the complex relationship between film and politics through the prism of an iconic filmmaker. Spielberg's early films were a triumphant emergence of the Sunbelt aesthetic that valued visceral kicks and basic emotions over the ambiguities of history. Such blockbusters have inspired much debate about their negative effect on politics and have been charged as being an expression of the corporatization of life. Here Frederick Wasser argues that the older Spielberg has not fully gone this way, suggesting that the filmmaker recycles the populist vision of older Hollywood because he sincerely believes in both big time moviemaking and liberal democracy. Nonetheless, his stories are burdened by his generation's hostility to public life, and the book shows how he uses filmmaking tricks to keep his audience with him and to smooth over the ideological contradictions. His audiences have become more global, as his films engage history. This fresh and provocative take on Spielberg in the context of globalization, rampant market capitalism and the hardening socio-political landscape of the United States will be fascinating reading for students of film and for anyone interested in contemporary America and its culture.

Steven Spielberg's Children Linda Ruth Williams, 2025-08-12 Why has Steven Spielberg's work been so often identified with childhood and children? How does the director elicit such complex performances from his young actors? Steven Spielberg's *Children* is the first book to investigate children, childhood, and Spielberg's employment of child actors together and in depth. Through a series of lively readings of both the celebrated performances he elicits from his young stars in films such as *E.T.: The Extra Terrestrial*, *A.I.: Artificial Intelligence*, and *Empire of the Sun*, as well as less discussed roles in films

such as *War of the Worlds*, *The BFG*, and *Jurassic Park*, this book shows children to be key players in the director's articulation of childhood since the 1970s. Steven Spielberg's *Children* presents children and childhood in some surprising ways, not only analyzing boyhood and girlhood according to Spielberg, but considering children as alien, adult-children who refuse to grow up, and children who aren't even human. It discusses the way in which children have served to cast Spielberg as a sentimentalist, but also how they are more frequently framed as complex, cruel, and canny. The child might be dangled as bait in an exploitation horror scenario (*Jaws*), might become the image of universal higher beings (*Close Encounters of the Third Kind*), or might be a young cultural creator like the director was himself (*The Fabelmans*), born with a camera glued to [his] eye. The child, on both sides of the camera, is a resonant image, signifying all that adult culture wants it to be, yet resisting this through authorship of their own stories. The book also looks at Spielberg's young actors in the long history of child stars in theater and cinema, and how Spielberg's children have fared as performers and celebrities.

The Historical Epic and Contemporary Hollywood James Russell, 2007-04-15 James Russell employs empirical historical techniques to explore how industrial conditions and the agendas of key directors, writers and producers led to the increased production of historical epics such as 'Dances with Wolves', 'Titanic', 'Gladiator' and 'The Passion of Christ'.

The Films of the Eighties William J. Palmer, 1993 In this remarkable sequel to his *Films of the Seventies: A Social History*, William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon, and generate discussion about major events, issues, and social trends of the eighties. Palmer defines the dialectic between film art and social history, taking as his theoretical model the holograph of history that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations, neoconservative feminism, and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River*, *Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills*, and *Fatal Attraction*. Utilizing the principles of New

Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

Capturing the Culture Richard Grenier,1991 This volume brings together 46 critical essays of Grenier, noted movie critic and social commentator. He lambastes the leftward leanings that have become fashionable in politicized Hollywood and among elements of the artistic elite, and shows how the often false values of film culture--whose members include a select few writers, producers, and directors--have spread into American political culture, subtly corrupting the perceptions and thinking of ordinary citizens. He also includes behind-the-scenes juicy tidbits on celebrities and the making of their films. ISBN 089633-149-0: \$24.95.
