Suburban Governance Pierre Hamel,Roger Keil,2015-02-05 North American gated communities, African squatter settlements, European housing estates, and Chinese urban villages all share one thing in common: they represent types of suburban space. As suburban growth becomes the dominant urban process of the twenty-first century, its governance poses an increasingly pressing set of global challenges. In *Suburban Governance: A Global View*, editors Pierre Hamel and Roger Keil have assembled a groundbreaking set of essays by leading urban scholars that assess how governance regulates the creation of the world's suburban spaces and everyday life within them. With contributors from ten countries on five continents, this collection covers the full breadth of contemporary developments in suburban governance. Examining the classic North American model of suburbia, contemporary alternatives in Europe and Latin America, and the emerging suburbanisms of Africa and Asia, *Suburban Governance* offers a strong analytical introduction to a vital topic in contemporary urban studies.

Philosophy, Democracy and Responsible Governance in Africa Josephat Obi Oguejiofor,2003 The essays presented in this collection set out to explore various aspects of the issue of governance and to reflect on how governance in Africa can be made to be more responsible. All the contributors exhibit clear awareness of the stupendous problems confronting governance in Africa, and make different suggestions aimed at obviating the difficulties. The volume is a timely and welcome contribution to the never-ending discussions about Africa, its problems, its leaders and managers, and the possible ways of drawing it out of the quagmire into which decades of bad governance, in addition to many other factors, have thrown most countries of the continent.
