The Reason for Reality Ronald Lee Hancock, 2012-12-18 The Reason for Reality presented in this book is derived from non-theistic ideas, although it does not rule out theistic origins. The prime notations use cosmological (e.g. singularities), atomic evolution (e.g. quarks to iron) and galactic evolution (e.g. biosphere development). The formation of introspective entities in biospheres lends itself to recognition of variation in individuals and environments. Thus imperfections and overt needs of assistance are generated. These individuals (unfortunates) and situations need to be corrected by other individuals (fortunates) The terms unfortunate and fortunate being relativistic. Also discussed in bio-philosophical terms are a variety of aspects related to the cancer problems. Biochemical and molecular biological mechanisms are devised. In conclusion the reason for reality is to give an opportunity to help unfortunates.

Human Rights in Action Miia Halme-Tuomisaari, 2010-10-25 Since World War II, human rights have engaged people around the world like perhaps no other discourse. In Finland their embrace represents a shift from ideological homogeneity to pluralism and openness. Human rights education is understood to hold a key role in empowering individuals to become free and equal members of their societies. Yet little empirical scholarship exists evaluating how this goal is met in reality. By combining anthropological approaches with critical legal theory, this study explores the conceptions of knowledge, expertise and learning embedded in the educational activities of a particular network of Scandinavian and Nordic human rights

experts. It explores how the ideals of emancipation and equality of the abstract discourse are realized in action.

Will Fair Use Survive? Free Expression in the Age of Copyright Control Marjorie Heins, 2005 In late 2004, the Brennan Center for Justice began a research project to learn how well fair use and free expression are faring among artists, scholars, and others who make critical contributions to culture and democratic discourse. Our discussions with members of PEN American Center, Women Make Movies, the College Art Association, and the Location One Gallery yielded two common themes. The first was that artists and scholars have great interest in, and confusion about, fair use. The second was a need for community support and pro bono legal assistance in their dealings with publishers, distributors, and other cultural gatekeepers.

The Globalization of Martyrdom Assaf Moghadam, 2011-04-01 2009 Outstanding Academic Title, Choice This groundbreaking volume examines the rise and spread of suicide attacks over the past decade. Sorting through 1,270 terror strikes between 1981 and 2007, Assaf Moghadam attributes their recent proliferation to the mutually related ascendance of al Qaeda and its guiding ideology, Salafi Jihad, an extreme interpretation of Islam that rejects national boundaries and seeks to create a global Muslim community. In exploring the roots of the extreme radicalization represented by Salafism, Moghadam finds many causes, including Western dominance in the Arab world, the physical diffusion of Salafi institutions and actors, and the element of opportunity created by the Soviet invasion of Afghanistan. He uses individual examples from the Middle East, Southwest Asia, and Europe to show how the elite leaders of al Qaeda and affiliated groups and their foot soldiers interact with one another and how they garner support—and a growing number of converts and attackers—from the Muslim community. Based on over a decade of empirical research and a critical examination of existing thought on suicide attacks, Moghadam distinguishes the key characteristics separating globalized suicide strikes from the traditional, localized pattern that previously prevailed. This unflinching analysis provides new information about the relationship between ideology and suicide attacks and recommends policies focused on containing Salafi Jihadism.

Islam and Citizenship in Indonesia Robert W. Hefner, 2023-12-19 Islam and Citizenship in Indonesia examines the conditions facilitating democracy, women's rights, and inclusive citizenship in Indonesia, the most populous Muslim-majority country and the third largest democracy in the world. The book shows that Muslim understandings of Islamic traditions and ethics have coevolved with the understanding and practice of democracy and citizen belonging. Following thirty-two years of

authoritarian rule, in 1998 this sprawling Southeast Asian country returned to electoral democracy. The achievement brought with it, however, an upsurge in both the numbers and assertiveness of Islamist militias, as well as a sharp increase in violence against religious minorities. The resulting mobilizations have pitted the Muslim supporters of an Indonesian variety of inclusive citizenship against populist proponents of Islamist majoritarianism. Seen from this historical example, the book demonstrates that Muslim actors come to know and practice Islam in a manner not determined in an unchanging way by scriptural commands but in coevolution with broader currents in politics, society, and citizen belonging. By exploring these questions in both an Indonesian and comparative context, this book offers important lessons on the challenge of democracy and inclusive citizenship in the Muslim-majority world. Well-written and informative, this book will be suitable for adoption in university courses on Islam, Southeast Asian Politics, Indonesian and Asian studies, as well as courses dealing with religion, democracy, and citizen belonging in multicultural societies around the world. The book will be of interest to the general reader with an interest in Islam, citizenship, and democracy.

Heterodox Hymns Howard Smith, Bron Zeage, David Misialowski, 2024-11-15 The following works are from three writers who are members of the Internet Infidels Discussion Board (IIDB), which, in affiliation with the Secular Web, promotes a naturalistic world view, free of God or gods and the supernatural. The works in the main are in keeping with the basic idea of metaphysical or methodological naturalism, and the idea that ultimately we are responsible for our own lives, and not beholden to some eye in the sky always watching and judging us.

The Infidel Martin E. Marty, 1961 Story of skepticism and freethought in America, from Thomas Paine through Robert Ingersoll to the present day.

Infidels Andrew Wheatcroft, 2004 Here is the first panoptic history of the long struggle between the Christian West and Islam. In this dazzlingly written, acutely nuanced account, Andrew Wheatcroft tracks a deep fault line of animosity between civilizations. He begins with a stunning account of the Battle of Lepanto in 1571, then turns to the main zones of conflict: Spain, from which the descendants of the Moors were eventually expelled; the Middle East, where Crusaders and Muslims clashed for years; and the Balkans, where distant memories spurred atrocities even into the twentieth century. Throughout, Wheatcroft delves beneath stereotypes, looking incisively at how images, ideas, language, and technology (from the printing press to the Internet), as well as politics, religion, and conquest, have allowed each side to demonize the other, revive old grievances, and fuel across centuries a seemingly unquenchable enmity. Finally, Wheatcroft tells how this fraught history led to our present maelstrom. We cannot, he argues, come to terms with today's perplexing animosities without confronting this dark past. From the Hardcover edition.

The Infidel Martin E. Marty, 2014-02-21 2014 Reprint of 1961 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Marty's work is a history of the role of the tradition of American unbelief [deism, skepticism, agnosticism and atheism] in the self-definition of American religion. The major infidels [Thomas Paine, Ethan Allen, Robert Owen, Robert Ingersoll and Clarence Darrow] succeeded like other less militant ones, not only in mobilizing the opposition to the churches, but also in defining the churches' own sense of mission and purpose. This is the history of these infidels in the American history.
