Karma Sadhguru, 2021-04-27 NEW YORK TIMES, USA TODAY, and PUBLISHERS WEEKLY BESTSELLER “Full of valuable insights to guide you.”—WILL SMITH “Thoughtful and life-affirming . . . a must-read.”—TONY ROBBINS “This book will put you back in charge of your own life.”—TOM BRADY A new perspective on the overused and misunderstood concept of “karma” that offers the key to happiness and enlightenment, from the world-renowned spiritual master Sadhguru. What is karma? Most people understand karma as a balance sheet of good and bad deeds, virtues and sins. The mechanism that decrees that we cannot evade the consequences of our own actions. In reality, karma has nothing to do with reward and punishment. Karma simply means action: your action, your responsibility. It isn’t some external system of crime and punishment, but an internal cycle generated by you. Accumulation of karma is determined only by your intention and the way you respond to what is happening to you. Over time, it’s possible to become ensnared by your own unconscious patterns of behavior. In Karma, Sadhguru seeks to put you back in the driver’s seat, turning you from a terror-struck passenger to a confident driver navigating the course of your own destiny. By living consciously and fully inhabiting each moment, you can free yourself from the cycle. Karma is an exploration and a manual, restoring our understanding of karma to its original potential for freedom and empowerment instead of a source of entanglement. Through Sadhguru’s teachings, you will learn how to live intelligently and joyfully in a challenging world.

Fruits of Karma: The Power of Deed and Destiny KALPESH KHATRI, The concept of karma has fascinated human consciousness for centuries, carrying with it profound wisdom and universal truths about the nature of existence. Derived from ancient Sanskrit, the word karma signifies action or deed, suggesting that our actions, whether physical, emotional, or mental, create ripples that affect our lives and the world around us. This philosophy, rooted in Hinduism, Buddhism, Jainism, and Sikhism, delves into the idea that every thought, word, and action has consequences, creating a cycle that binds us to our past deeds and, potentially, to a future dictated by those actions. Karma is often simplified as a principle where good deeds beget good outcomes, and bad deeds beget bad outcomes. However, its essence goes deeper, exploring the interplay between individual will and universal balance. The fruits of karma are not merely rewards or punishments; they are natural responses to our own intentions and deeds, offering us the opportunity to reflect, learn, and grow. In this book, *Fruits of Karma: The Power of Deed and Destiny*, we will explore karma as a living, dynamic force shaping every aspect of human life. We'll delve into how our daily actions—conscious or unconscious—impact our relationships, careers, health, and spiritual journeys. By understanding karma as a guide rather than a judge, readers will discover how to align their actions with higher

values, cultivating positive outcomes that enrich their own lives and contribute to the greater good. The book is organized into fifteen chapters, each dedicated to unraveling different aspects of karma. From understanding the spiritual dimensions of karma to its practical applications in daily life, this book offers a comprehensive guide for those seeking deeper insights into the forces that govern our actions and experiences. Readers will learn to break free from cycles of negative karma, foster compassion, and ultimately move towards spiritual liberation.

Karma and Destiny Oliver Faith, AI, 2025-02-14 Karma and Destiny explores the intricate relationship between our actions and the unfolding of our lives, examining karma and destiny not as abstract concepts, but as dynamic forces. This book delves into how these principles shape ethical decision-making and influence our sense of purpose. It traces the historical development of karmic thought, from ancient Indian philosophy to its presence in Hinduism and Buddhism, while also considering parallels in other belief systems. A key insight the book offers is that while past actions influence present circumstances, we still possess agency in shaping our future. The book progresses through three key sections, beginning with core concepts like karma and rebirth as presented in Hinduism and Buddhism. It then explores karmic accumulation and maturation, considering the role of intention and debates surrounding free will. Finally, it addresses how understanding karma can lead to positive change through practices like mindfulness and compassion. By examining primary religious texts and drawing upon contemporary research, Karma and Destiny provides a practical and accessible understanding of karma, empowering readers to cultivate greater self-awareness and make more conscious choices.

Karma Yoga Swami Vivekananda, 2020-03-26 The word Karma is derived from the Kri, to do; all action is Karma. Technically, this word also means the effects of actions. In connection with metaphysics, it sometimes means the effects, of which our past actions were the causes. But in Karma-Yoga we have simply to do with the word Karma as meaning work. The goal of mankind is knowledge; that is the one ideal placed before us by Eastern philosophy. Pleasure is not the goal of man, but knowledge. Pleasure and happiness come to an end. It is a mistake to suppose that pleasure is the goal; the cause of all the miseries we have in the world is that men foolishly think pleasure to be the ideal to strive for. After a time man finds that it is not happiness, but knowledge, towards which he is going, and that both pleasure and pain are great teachers, and that he learns as much from evil as from good. As pleasure and pain pass before his soul they leave upon it different pictures, and

the result of these combined impressions is what is called man's character. If you take the character of any man it really is but the aggregate of tendencies, the sum-total of the bent of his mind; you will find that misery and happiness are equal factors in the formation of that character. Good and evil have an equal share in moulding character, and in some instances misery is a greater teacher than happiness. In studying the great characters the world has produced, I dare say, in the vast majority of cases, it would be found that it was misery that taught more than happiness, it was poverty that taught more than wealth, it was blows that brought out their inner fire more than praise. Now this knowledge, again, is inherent in man; no knowledge comes from outside; it is all inside. 'What we say a man knows, should, in strict psychological language, be what he discovers or unveils; what a man learns is really what he discovers, by taking the cover off his own soul, which is a mine of infinite knowledge. We say Newton discovered gravitation. Was it sitting anywhere in a corner waiting for him? It was in his own mind; the time came and he found it out. All knowledge that the world has ever received comes from the mind; the infinite library of the universe is in your own mind. The external world is simply the suggestion, the occasion, which sets you to study your own mind, but the object of your study is always your own mind. The falling of an apple gave the suggestion to Newton, and he studied his own mind; he rearranged all the previous links of thought in his mind and discovered a new link among them, which we call the law of gravitation. It was not in the apple nor in anything in the centre of the earth. All knowledge therefore, secular or spiritual, is in the human mind. In many cases it is not discovered, but remains covered, and when the covering is being slowly taken off we say we are learning, and the advance of knowledge is made by the advance of this process of uncovering. The man from whom this veil is being lifted is the more knowing man; the man upon whom it lies thick is ignorant, and the man from whom it has entirely gone is all-knowing, omniscient. There have been omniscient men, and, I believe, there will be yet; and that there will be myriads of them in the cycles to come. Like fire in a piece of flint, knowledge exists in the mind; suggestion is the friction which brings it out. So with all our feelings and actions - our tears and our smiles, our joys and our griefs, our weeping and our laughter, our curses and our blessings, our praises and our blames - every one of these we may find, if we calmly study our own selves, to have been brought out from within ourselves by so many blows. The result is what we are; all these blows taken together are called Karma, work, action. Every mental and physical blow that is given to the soul.
