**Translation and Race** Corine Tachtiris, 2024-02-06 Translation and Race brings together translation studies with critical race studies for a long-overdue reckoning with race and racism in translation theory and practice. This book explores the unbearable whiteness of translation in the West that excludes scholars and translators of color from the field and also upholds racial inequities more broadly. Outlining relevant concepts from critical race studies, Translation and Race demonstrates how norms of translation theory and practice in the West actually derive from ideas rooted in white supremacy and other forms of racism. Chapters explore translation's role in historical processes of racialization, racial capitalism and intellectual property, identity politics and Black translation praxis, the globalization of critical race studies, and ethical strategies for translating racist discourse. Beyond attempts to diversify the field of translation studies and the literary translation profession, this book ultimately calls for a radical transformation of translation theory and practice. This book is crucial reading for advanced students and scholars in translation studies, critical race and ethnic studies, and related areas, as well as for practicing translators. The Open Access version of this book, available at <http://www.taylorfrancis.com>, has been made available under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

**Project Management for Book Publishers** John Rodzvilla, 2024-07-18 Project Management for Book Publishers provides readers with a solid understanding of efficient processes and workflows for content creation, product development, and the marketing and distribution of both physical and digital products. Digital has brought more data, more training, and more accountability to the publishing process. But it has also shone light on how systems designed initially around print-first publications are ill-equipped to support an industry of now would-be digital media companies. This book addresses some of the major challenges for publishing houses facing this reality, including how to create a digital-aware workflow, implementing quality assurance procedures, and using different management systems to develop an efficient workflow. Beginning by explaining project and product management practices used throughout technology and media companies, it then delves into when and how these principles can be applied to the publishing workflow. Topics covered include Waterfall and Agile Project Management, Scrum methodology, Kanban framework, ebook and audio formats, metadata, quality assurance, crowdfunding, in-app monetization, ONIX, and accessibility. Readers will consider not just how to contend with online platforms that allow authors to publish with the click of a button, and audiences accustomed to accessing content

across multiple platforms and formats, but also challenges arising from factors such as the data-driven acquisitions model in libraries, the downward spiral of sales in college bookstores, the call for accessibility, and the need for fluid content systems that can work with different publishing databases and software. Written for publishing professionals at all levels, this book will also help advanced students of Publishing and Book Studies navigate best practices for project management in the modern publishing landscape.

**Finding God in All the Black Places** Beretta E. Smith-Shomade, 2024-10-11 This book is also freely available online as an open-access digital edition: <https://manifold.ecds.emory.edu/projects/finding-god-in-all-the-black-places> (<https://dhjhkxawhe8q4.cloudfront.net/rup-wp-v2/wp-content/uploads/2025/01/28132142/9781978839809.pdf>) In *Finding God in All the Black Places*, Beretta E. Smith-Shomade contends that Black spirituality and Black church religiosity are the critical crux of Black popular culture. She argues that cultural, community, and social support live within the Black church and that spirit, art, and progress are deeply entwined and seal this connection. Including the work of artists such as Mary J. Blige, D'Angelo, Erykah Badu, Prince, Spike Lee, and Oprah Winfrey, the book examines contemporary Black television, film, music and digital culture to demonstrate the role, impact, and dominance of spirituality and religion in Black popular culture. Smith-Shomade believes that acknowledging and comprehending the foundations of Black spirituality and Black church religiosity within Black popular culture provide a way for viewers, listeners, and users not only to endure but also to revitalize.

**How to Think Ethically about Global Issues** Stephen Minister, 2024-06-21 This textbook is an introduction to thinking ethically about global issues. Unlike existing books in this area, this book is truly interdisciplinary and includes a range of voices from both the Global South and the Global North. Rather than simply applying Western theories to case studies, Prof. Stephen Minister shows readers how to consider context and complexity, while respecting the agency of people elsewhere. It weaves together the work of thinkers and writers from the Global South with philosophical work on global ethics, relevant scholarship from other academic fields, and stories from fieldwork studying global issues on four continents. The textbook explores a variety of topics, including: cultural difference, gender, population, poverty, natural disasters, and development. It then encourages students to build on these ideas and think more deeply about topics such as foreign aid, inequality, immigration, international trade, climate change, human rights, and war and terrorism. Because the book's style is accessible and engaging, it will be an excellent text for ethics and global studies courses, as well as being of interest to general readers who want to think better about global issues.

**Publishing as a Creative Industry** Stevie Marsden, 2025-04-21 Book publishing is big business, contributing significant employment in the creative industries and adding billions to the global economy. Despite this, the sector is often overlooked in the creative industries' research tide. This book remedies this gap in knowledge, providing an examination of book

publishing in the UK within the wider context of the creative industries and the existing academic discourse. Balancing the tensions of art and commerce perhaps more than any other creative field, this book considers the position of the book publishing industry within the contemporary cultural economy. Through this focused analysis on the culture(s) and organisation(s) of book publishing in the UK, the author demonstrates how this creative industry reflects, and perpetuates, many of the key issues and challenges, including inequalities in representation, cultural and economic dominance of global conglomerates, and hierarchies of value, already recognised as central within the creative industries in the UK and beyond. This concise book will be essential reading for academics, researchers, and students with an interest in the publishing industry and its position within the UK Creative Industries and cultural economy.

**Benevolent Intentions** Fredric Muir, 2025-06-17 Fredric Muir explores a period of American history that is “difficult knowledge”: the country’s determination to be a member of the imperial era’s club of colonizing nations. While the book’s characters are Christian religious liberals in particular, what is surprising is not that they were in positions to direct and enforce colonial hegemony but that there were so many of them; in fact, there was a disproportionately large number of religious liberals in positions of authority and leadership. Addressing topics that are still current, this book describes the intersection of religious liberalism and imperialism and identifies those who were in positions of power while observing what it was about the liberal Christian faith that was informing them (and the limited and failed resistance of the anti-imperialist and anti-immigration movements). The results have been lasting and continue as headline news.
