SA Adler

The Open Work Umberto Eco, 1989 This book is significant for its concept of openness--the artist's decision to leave arrangements of some constituents of a work to the public or to chance--and for its anticipation of two themes of literary theory: the element of multiplicity and plurality in art, and the insistence on literary response as an interaction between reader and text.

Opera aperta Umberto Eco, 2023-04-18T00:00:00+02:00 Sono passati sessant'anni dalla prima edizione di *Opera aperta* (1962) e, con la consapevolezza del senno di poi, possiamo dire che questo libro rappresenta uno dei saggi più importanti del secondo Novecento europeo. *Opera aperta* è stato un libro di rottura. Eco - come spesso ha fatto - ha qui incrociato in maniera inedita ed efficacissima suggestioni attinte da Tommaso d'Aquino (e corroborate da Joyce) con gli ultimi portati della teoria dell'informazione applicata al discorso poetico, spunti dalla linguistica saussuriana con le sperimentazioni della musica di Luciano Berio (che Eco incontrava negli studi Rai proprio negli anni in cui scriveva queste pagine) e con gli esiti più recenti della fisica teorica. Con straordinaria anticipazione, Eco ha fornito sessant'anni fa categorie per pensare l'arte e i linguaggi di oggi, che nel dialogo con il digitale hanno evidentemente sposato replicabilità, rimediazione, frammentazione, rilancio - e dunque apertura. La nave di Teseo ripropone questo volume in una nuova edizione con una documentazione inedita che comprende i materiali preparatori e gli appunti di Eco stesso sulla prima edizione, da lui ampiamente rivista e rilavorata - annotazioni che raccontano l'evoluzione del pensiero di Eco, ricostruita nella postfazione di Riccardo Fedriga.

Opera Aperta Emanuela Patti, 2022 This book reconstructs the history of Italian electronic literature, looking at creative practices across literature, electronic and digital media from the early days of computers to the social media age. Topics include criticism of mass media, globalisation, information society and late capitalism as well as the enhancement of language itself.

Transnational Perspectives on the Art of Piero Manzoni and Hélio Oiticica Lara Demori, 2025-08-26 Establishing a 'missed link' between the work of Piero Manzoni and Hélio Oiticica and their respective cultural contexts, this book sheds new light on overlooked aspects of these two artists' practices, particularly focusing on the shift from painting to performance in the long 1960s. Lara Demori envisions a transnational juxtaposition, a conceptual dialogue that discloses overlooked resonances between the work and the modus operandi of both artists, repositioning claims of national exceptionalism within a web of

constellated practices. This book proposes their oeuvre as heterogeneous critical models to unpack categories of thought used to analyse the postwar decades: Tabula Rasa, Anti-Art, Open Work, and (self-)Marginalisation and Freedom. These, in turn, are charged with specific histories and offer new paradigms for the formal and social inventions perpetuated by the art of Manzoni, Oiticica, and fellow artists in the context of the détournements that crossed the 1960s on a global scale. This book will be of interest to scholars working in art history, modernism and post-modernism, Italian studies, and Brazilian studies.

Matters of Telling: The Impulse of the Story Carlo Comanducci, Alex Wilkinson, 2018-11-26 In this book, multiple authors and perspectives converge on the materiality of storytelling in order to court its potentialities and flesh out its tensions. Reflecting through its methodological multiplicity not only the vast array of discourses and disciplines that concern themselves with the study of narration, but also the various and variable subjects of the act of telling, the collective effort of this volume is less to map or track than to amplify the possibilities of contingent situations, embodied relations and specific texts in which, beyond the tale, the telling itself speaks and matters.

Illuminating Eco Charlotte Ross, 2017-03-02 Illuminating Eco covers the range of British scholarship on the prolific literary and theoretical work of Umberto Eco. With essays by scholars such as Michael Caesar and David Robey, the volume provides an overview of current research being carried out by a new generation of academics. In addition, it provides an opportunity to view the interaction between Eco's fiction and his theoretical texts and suggests future avenues of research. The interdisciplinary nature of the contributions makes this collection accessible to Italianists and non-Italian speakers alike in order to situate Eco's work in the wider literary and critical sphere. Contributions have been divided into four sections, with the first containing essays that engage with Eco's writing through a strong awareness of the reading strategies suggested and required by his texts. The second section is composed of essays that discuss different approaches to interpretative strategies, including the relationship between Eco's theoretical writing and his own fiction. The third part consists of new responses to Eco's work, each of which questions previous theoretical interpretations and creates new applications for established approaches. Finally, the fourth section contains a written response from Eco himself to some of the questions raised by these essays, and a translation of the final chapter from his most recent publication, *Sulla letteratura*, which discusses the development of his narrative works from conception to execution.

Neoavanguardia' Mario Moroni, Luca Somigli, Paolo Chirumbolo, 2010-01-01 The Italian neoavanguardia, a literary and artistic movement characterized by a strong push towards experimentation, playfulness, and new forms of language usage, was founded at the beginning of the 1960s by a group of poets, critics, artists, and composers. Although the neoavanguardia movement has been primarily defined and examined in a literary context, it is broadly discussed in this collection as also affecting other artistic forms such as the visual arts, music, and architecture. In examining this often controversial

movement, Neoavanguardia's contributors include topics such as critical-theoretical debates, the crisis of literature as defined within the movement, and issues of gender in 1960s Italian art and literature. This important collection interrogates the arts as creative codes, their ability to question reality, and their capacity to survive. In so doing, it paves the way for future interdisciplinary investigations of this complex cultural formation.

A Theory of the Literary Text Antonio García-Berrio, 2016-11-21 No detailed description available for A Theory of the Literary Text.

Eco's Chaosmos Cristina Farronato, 2003-01-01 While Umberto Eco's intellectual itinerary was marked by his early studies of post-Crocean aesthetics and his spectacular concentration on linguistics, information theory, structuralism, semiotics, cognitive science, and media studies, what constitutes the peculiarity of his critical and fiction writing is the tension between a typically medieval search for a code and the hermeneutic representative of deconstructive tendencies. This tension between cosmos and chaos, order and disorder, is reflected in the word chaosmos. In this brilliant assessment of the philosophical basis of Eco's critical and fictional writing, Cristina Farronato explores the other distinctive aspect of Eco's thought - the struggle for a composition of opposites, the outcome deriving from his ability to elicit similar contrasts from the past and re-play them in modern terms. Focusing principally on how Eco's scholarly background influenced his study of semiotics, Farronato analyzes *The Name of the Rose* in relation to William of Ockham's epistemology, C.S. Peirce's work on abduction, and Wittgenstein's theory of language. She discusses Foucault's *Pendulum* as an explicit comment on the modern debate on interpretation through a direct reference to Early Modern hermetic thought, correlates *The Island of the Day Before* as a postmodern mixture of science and superstition, and reviews *Baudolino* as an historical/fantastic novel that once again situates the Middle Ages in a postmodern context. Eco's *Chaosmos* demonstrates how Eco's use of semiotic theory is important for an understanding of the postmodern aspects of today's literature and culture.

Manzoni Piero Manzoni, 2007 Le circa 250 opere esposte documentano l'attività di Piero Manzoni, partendo dai catrami del 1956-57, per passare dal 1958 agli Achromes (in francese, incolore), nei quali l'utilizzo di materiali inediti in pittura si unisce alla ricerca di rigorose strutture formali, mentre scorre parallela la sua produzione di oggetti che coinvolgono la fisicità del corpo umano, come i *Fatti d'artista*. Il percorso espositivo è arricchito con la presentazione del contesto storico-artistico internazionale in cui Manzoni si è trovato ad operare e con cui si è confrontato, mettendo così in evidenza il suo

contributo.
