The Elements of Ethical Practice Nadine Pelling, Lorelle Burton, 2019-04-17 The Elements of Ethical Dilemmas: Applied Psychology Ethics in Australia is a comprehensive and applied guide to practising psychology in an ethical and professional manner. This book is designed to assist applicants for general registration as a psychologist successfully navigate one of the eight core competencies for general registration set by the Psychology Board of Australia; specifically ethical, legal, and professional matters. The exploration of ethical dilemmas is a core task for the 4+2 pathway to general registration, while related ethical applications require exploration in the 5+1 and higher education pathways to registration as well. This book will teach readers how to identify, explore, and choose the appropriate professional course of action when confronted by ethical dilemmas in practice. The chapters include personal reflections from expert contributors relating to each of the ethical dilemmas, expertly highlighting clients' and stakeholders' circumstances, ethical codes and guidelines, scholarship and research, as well as other key elements in the ethical decision-making process. Especially relevant to those applying to become a registered psychologist in Australia, this book offers invaluable guidance on responding to ethical dilemmas as required by the Psychology Board of Australia in various pathways to general registration.

**Building Better Schools with Evidence-based Policy** Kelly-Ann Allen, Andrea Reupert, Lindsay Oades, 2021-04-29 Building Better Schools with Evidence-based Policy: Adaptable Policy for Teachers and School Leaders provides an extensive set of free-to-use policies for building better schools. The policies included in this book cover a broad range of popular topics for schools that are not readily accessible, and each policy is built on theory, driven by research, and created by experts. Each policy is based on substantial evidence, and this is ensured through the inclusion of contributors who are active and highly reputable in their respective field. Most schools are obliged to write and maintain policy, and not all school leaders have the required skills, time, or expertise to do this effectively. Building Better Schools with Evidence-based Policy: Adaptable Policy for Teachers and School Leaders is a time-saving resource for schools. It aims to address the reported research-to-practice gap in education by delivering accessible evidence-based practice in a ready-to-use adaptable format. All

policies within this book are designed to be adapted and tailored to the unique diversity and needs of each school as reflected by the context and the people that make up the school community. This book is relevant to every person who works in a school – worldwide. Users of this book can rest assured that each policy has been carefully formulated from the current understandings of best practice. This is a practical innovation and an example of how schools can use research evidence in their day-to-day practices. The Open Access version of this book, available at [www.taylorfrancis.com](http://www.taylorfrancis.com), has been made available under a Creative Commons Attribution-Non-Commercial-No Derivatives 4.0 license.

Practical Ethics in Counselling and Psychotherapy Linda Finlay, 2019-02-25 Are you sometimes challenged by how to apply ethical principles in your own practice? Looking to understand what ethical practice can look like from different theoretical standpoints? Linda Finlay takes you on an exploration of ethical therapeutic practice. She highlights how therapeutic decisions depend on the social and relational context and vary according to your theoretical lens. She provides you with guidance on how to engage in therapy relationally while remaining professional, ethical and evidence-based. Split over three parts this book takes you through: - The Context of Relational Ethics - introducing you to the foundational ideas, and considering how professional codes are applied within therapy - Relational Ethics within the Therapeutic Relationship - exploring the complex judgements demanded by the therapeutic process, and looking at how therapy needs to be situation specific - Relational Ethics in Practice - five extended, fictional case studies demonstrate relational ethics in practice, and discuss the issues raised.

**Weaving Theology in Oceania** Beatrice Green, Keiti Ann Kanongata'a, 2020-10-06 Clear assessment of our needs in a global society, and sound creative solutions from an Oceanic perspective and beyond, form the subject matter of this book. Here, the cries of suffering from women in violent relationships, people yearning for growth and dignity, others with mental and emotional trauma, and mother Earth herself are heard, and enlist support and direction from those whose energy and insight are centred in faith, hope and love and firmly anchored in Christian professional academic endeavour. The book is patterned after the woven mats, roof and sails of the great ocean-going canoe to image the diversity of content of this extraordinary gathering of hearts, hands and minds. While it reflects the global scholarly Christian concern and outreach indicative of our times, and a theological approach that is interactive and interdependent, it reveals a 'weaving' that is unfinished because the voyage must continue onwards, in an attitude of deep listening and open questioning. As such, the work gathered here represents an energetic contribution towards courageous engagement in the travail that characterises our extraordinary transitional era as we move towards a new consciousness, and the book will be of particular interest to academic theologians, educationalists, Church authorities and pastoral workers from the Oceanic region. However, it will also inspire and inform comparable groups from other parts of the world simply because what is presented here has universal implications.
