The book was developed as a reference text for scientists, professionals, and graduate students with a strong interest in this unique plant.

American Bamboos Emmet J. Judziewicz, Lynn G. Clark, Ximena Londono, Margaret Stern, 1999-01-17 Drawing on two decades of fieldwork in the United States and fifteen Latin American countries, the authors bring together current knowledge of the structure, ecology, human uses, conservation value, evolution, and diversity of the forty-one genera of American woody and herbaceous bamboos. They also discuss three genera of basal grasses that resemble bamboos. They describe the importance of bamboos to South American landscapes and cultures, explaining how jungles of *Guadua* and thickets of *Chusquea* host communities of small animals and how human societies use bamboo for housing, furniture, basketry, food, soil conservation, and musical instruments. Exploring the possibilities of cultivated bamboo, the authors also note its value in some regions as a timber resource. Generously illustrated with color photographs and detailed line drawings, the book provides genus-by-genus descriptions of bamboos, as well as habitat data, range maps, lists of recognized species, and complete references. It also includes the most recent molecular and systematic evidence for bamboo evolution and phylogeny. The first ever to focus on the bamboos of the Americas, this volume is an essential resource for botanists, taxonomists, horticulturists, and gardeners.

Conservation and Improvement of Sloping Lands, Vol. 1 P J Storey, 2024-11-01 This book offers a positive response to the challenge to both conserve and improve the soil and water situation particularly on sloping lands. The Art History of the Yuan Dynasty Li Shi, The book is the volume of "The Art History of the Yuan Dynasty" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600-1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070-1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural

centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046-256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC - 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644-1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood - the most recent being the Chinese Civil War (1927-1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.
