**The Great Tartarian Reset: History's Deleted Civilization** Mark Wells, 2025-07-15 The Great Tartarian Reset: History's Deleted Civilization Uncover the Empire That Time and Textbooks Forgot Was there once a global civilization far more advanced than we've been taught? Why do 18th-century maps reference a vast empire called Tartaria — and why is it absent from modern history books? What if ancient architecture, buried cities, and forgotten energy technologies are clues to a reset so profound, it erased an entire world? The Great Tartarian Reset: History's Deleted Civilization is a bold investigation into one of the most provocative historical mysteries of our time. Blending architectural analysis, cartographic evidence, lost technologies, and suppressed accounts, this book explores the theory that a worldwide civilization — Tartaria — was deliberately wiped from memory in the 1800s through a global reset event. Inside, you'll discover: Why old maps, encyclopedias, and architecture suggest a missing empire The strange role of orphan trains, world's fairs, and "natural disasters" How sacred geometry and free energy were embedded in Tartarian buildings The influence of secret societies in rewriting global history A vision for rebuilding civilization based on harmony, beauty, and truth This isn't just a book about the past — it's a call to remember what was lost... and to reawaken what's possible. For truth seekers, architectural enthusiasts, alternative historians, and those curious about what may have been hidden in plain sight — this book will challenge everything you thought you knew about civilization.

CASA IGUANA Val Robinia, 2025-11-05 A young woman dies in a hotel at a tropical resort. Her death is linked to a series of mysterious events, including the discovery of an unusual ancient coin. The investigation into this tragedy becomes a journey into a world carefully hidden from prying eyes, where the interests of powerful secret groups intertwine, erased pages of history come alive, and knowledge once meant to remain concealed continues to shape the present. A deeply philosophical novel told through the lens of magical realism, it explores the mysteries and contradictions of our world, raising

profound ethical questions against the backdrop of extraordinary events.

Arkana From the Abyss to the Stars- Back to you Jason Sanders-Harding , Arkana: From the Abyss to the Stars In the smog-choked heart of a 19th-century industrial empire, Arkana's life is a cage—forged by a loveless marriage to a cruel tycoon. Her only refuge? A peculiar job tending to the enigmatic Mr. Bellingham, a man whose secrets mirror her own silent despair. Then, fate intervenes. A fleeting encounter on a tram—a glance, a spark—with a charismatic stranger ignites a hope she thought impossible: real love. But destiny has a darker design. In her desperate flight to escape, Arkana is torn from her world entirely, hurled into a future so dazzling it defies reason. Awakening in a city of glass and neon, her Victorian gown and ticket stub mark her as an anomaly. Here, time bends, identities blur, and the man she loves is both everywhere and nowhere. To survive, Arkana must unravel the truth behind her own existence—before the universe itself erases her. A genre-defying masterpiece blending gothic romance, sci-fi thriller, and existential mystery, Arkana: From the Abyss to the Stars is a heart-wrenching odyssey across time and space. Will she reclaim her stolen future, or vanish into the abyss between stars?
